

[Back to Table of Contents](#)

Does your child fall into any of the following categories/participate in any of the following services

Survey Version	Stakeholder Group	School	English Learner (EL)	Foster Youth	Restorative Justice	Special Education	Free and Reduced Price Lunch	Counseling Services	None of the above	Please use the space below to share the district's areas of strength.	Please use the space below to share areas the district should develop.
Parent	Parent	Thomas Downey High						Counseling Services		target: a diploma in every hand	additional ROP type careers
Parent	Parent	James C. Enochs High							None of the above		Traditional math back in our high schools with a focus on 8th graders completing Algebra 1 as a baseline goal.
Parent	Parent	La Loma Junior High							None of the above	I feel like the teachers really care about the students. My child is getting an excellent education, along with a great opportunity for sports and extra-curricular activities	The District needs to work more on communication with parents. A lot of it is not being carried through by the school. I would much rather receive an email than a phone-dialer. Also, there are way too many Collaboration Minimum Days. It should be one per month maximum. It is a hardship to arrange for someone to pick up my child early from school those days.
Parent	Parent	John Fremont Elementary							None of the above	Diversity of Modesto City Schools,	Vocational education, more rounded education at elementary art, science, history, music, P.E. Getting our students ready to live on their own in the real world.
Community	Community									The teachers and all support staff.	Helping fund the classroom, providing direction towards a better tomorrow, more diversity, less district management
Parent	Parent	Grace M. Davis High							None of the above	I am encouraged as the district plans to go one-to-one with devices and help better prepare our children for college.	My child has many weak teachers. I feel the district and administration allow sub par teachers to continue teaching rather than fight the union on getting rid of them. Unfortunately this practice has led to MANY teachers who do not academically challenge our kids and simply collect a paycheck to remain in our schools. I am grateful for the AMAZING teachers who excel in teaching my child and go above and beyond to give them a quality education. I just wish we could get rid of the ones who are not giving our kids a quality education.
Parent	Parent	John Fremont Elementary							None of the above	Fremont open plan IB at Modesto high All the academies that promote community and career focus at the high schools Odyssey of the mind Science Olympiad Academic decathlon Sports Theater Art Vocational education All the things that are experiential learning activities that enhance community, build grit , and develop motivation in students of all types .	Finding grants to support innovation inthe classroom, best practices in education and professional development for teachers, staff and administrators.

Parent	Parent	John Fremont Elementary							None of the above	Technology! I feel that our school is lacking, not only in providing technology to students, but in support for teachers. There seems to always be something wrong with the internet or network. It's frustrating for parents to see teachers stymied this way and wasting their time troubleshooting or going the long roundabout way to accomplish what should be an easy task. Also school improvements. Our school is very old and in need of upgrades. Yet it seems all money is poured into the new high schools.	
Community	Community									Very diverse student body	More enrichment for kids including the arts and vocational ed for students that are not college bound.
Parent	Parent	John Fremont Elementary							None of the above	Soul crushing bureaucracy	Create humane policies for children. Ones that don't force sick kids to come to school for the sole purpose of getting ADA money.
Parent	Parent	Roosevelt Junior High							None of the above	website updated and great way to inform parents.	maintain a vice principal at all sites and not split them up between two. Allow 6th graders the opportunity to attend camp for 5 days. Allow the same opportunity in music (strings, wind and percussion) 4-6th graders throughout the district not at selected schools.
Parent	Parent	Thomas Downey High							None of the above	I think a lot of people work really hard to provide a safe, healthy, and challenging academic environment for MCS. My son has had a few really good teachers. Unfortunately, a lot of people don't seem to work hard anymore. I did not choose MCS for my second child. Some of the coaching staff are truly top notch, and build strength, and character in students, and have been a blessing in my son's life.	More opportunities for regular education students.
Community	Community									The district is staffed with caring teachers, admin, and staff that want students to succeed.	Better communication within the district
Student	Student	James C. Enochs High								The district keeps the schools clean and has gathered a few respectful, understanding, and reasonable teachers.	A fair amount teachers are disrespectful to students, treating them as almost subhuman. Also some teachers lack the knowledge on how to explain the new curriculum.
Community	Community										Basic parenting skills to help parents/students at home. Home life has a direct impact on students at school success or lack of.
Parent	Parent	John Fremont Elementary							None of the above	Listening to parents after repeated and numerous complaints. Hiring of teachers at Fremont Open Plan. Mark Herbst is a great liaison between community and district.	Better promotion of Fremont Open Plan school, both internally in the district and externally in the community. More funding for elementary schools. Better maintenance of schools, HVAC systems and security. Promotion of Principal at Fremont Open Plan who is knowledgeable about the Open Plan program.

Student	Student	Grace M. Davis High								I feel like where I go to school there is more kind students than ones who bully others. Personally, I've never been of witnessed another student or teacher being bullied so I feel this district does a wonderful job of keeping a bully free environment. I'm a student at Davis high and really like how my school is so diverse than others.	Even though I love going to school me as well as many other students feel we are unprepared for the real world. There's no class that teaches you things you'll really use, like how to buy a house or get a job. We take math that we just forget and have no use for, when is a student ever going to need to know how to do a shadow problem? Or use trigonometry? I strongly believe the district should create more classes where students learn real world skills that we're actually going to use one day. Especially high school students because many are nearly adults and feeling overwhelmed with thoughts of college as well as other worries so it'd be great to know what we're doing. I'd love to have a class where I'm taught how to build a college application, a resume, and what to do when I get my taxes one day. This is the area where I feel the district should develop. It'd never lose how important it would be to students.
Student	Student	James C. Enochs High								No bullying	Some teachers just cant teach
Student	Student	James C. Enochs High								They are good at enforcing punishments	some teachers are absolutely atrocious at teaching, honestly mate.
Community	Community									The district offers opportunities for students, parents, and community to be involved in the direction of the district.	Continue implementing "learn by doing" career technical education. Curriculum should be developed to support this area beginning in 5th grade. Middle schools should embrace this model, and students should choose high schools based upon their career/technical interests and not necessarily their "home" high school. Increase availability of hands-on experiential activities.
Student	Student	James C. Enochs High								Trying to better our schools in any way they can.	Include the students in things that will influence our daily lives in school like voting on schedule changes or new technology.
Student	Student	Joseph A. Gregori High								I feel our district area is neat and has good education but here is to many strict rules.	The district should develop some more basic rules and should be more caring of the students persona not just what they think they might like.
Student	Student	Wilson Elementary								The district's areas of strength are math, E.L.A., tests, coding, computers, physical education/outdoor learning.	I think areas the district should develop are science, sports, other languages, and more extra curriculum.
Student	Student	Wilson Elementary								The things I will share about the district's areas of strength is that they are in charge of all the schools and even my school Wilson Elementary. And our strength is using technology.	The areas the district should develop is probably math and E.L.A.
Student	Student	Wilson Elementary								that we are able to have great teachers.	that childeren like me need to know how to line up quietly.

Student	Student	Wilson Elementary								wilson is a nice school i love it and it is clean as nice kids and staff	they need more playgrouds and kids yardy judy.
Parent	Parent	Wilson Elementary							None of the above	one good thing that is happing is that we are learning how to use computers.	they shouled make ice cream day.
Student	Student	Wilson Elementary								vknvkjnc	c,v,,v
Student	Student	Modesto High								sports	
Parent	Parent	John Fremont Elementary					Free and Reduced Price Lunch				I feel we need more support for students that struggle with ADHD and very high functioning disabilities.
Community	Community									Committed staff/ teachers and most Admin That I know	Must get students to Study on their time. Can't expect Spoon feeding.
Student	Student	Grace M. Davis High								The areas of strength that they have is i don't know.	The areas they should develop is I don't know.
Parent	Parent	James C. Enochs High							None of the above		District should look at common core and find out how teachers are handling teaching their subjects the common core way when they have not learned how to present the information to students.
Parent	Parent	Modesto High							None of the above		UC recognized honors level Oral Interp, Journalism and additional course offerings. Equitable funding throughout all sports programs. Complete & timely communication through school websites including 'who, what, when, where, why & how'. Standard time frame for responses to all phone and email messages. Standard maximum wait time for cafeteria. Student body office forms available by download from website. IB Course offerings through Pamoja.
Student	Student	Fred C. Beyer High								The district lacks fun and engaging opportunities and events.	the district should develop more opportunities for the students.

Student	Student	Joseph A. Gregori High								<p>Strengths: -nice schools -good teachers > bad ones -fandandy staff -lots of extracurricular support</p>	<p>Do me a solid and find a way to promote the ideology that everyone can learn and be a <edited for language> genius through a more individualized curriculum. I get that I probably don't understand how complicated that would be, but I do understand that it's the best way to help a broader range of students. If there's anything that I've learned these past two years From meeting new people, it's that everyone is able to have a passion for education. This year, I made a really good friend--one I'd never thought I'd talk to in a million years. <edited for language> Since meeting him, it's like an entire world has opened up to me. All of the people I've met that are "failing", don't have to be. They could be the most productive people of society if we could just find a philosophy that sticks to them. I don't know. I don't even know if you do these things. Just help them. Help them by finding a way to ignite their passions; to inspire, and motivate. - Common Core sucks. It's language is unnecessarily complicated. To the point most AP kids just look this <edited for language> up online (YouTube and Khan Academy are my best buds) I get that we're supposed to be using mature language, but if we don't understand it, what's the <edited for language> point? I mean, sure keep the mature language. It's great. But it can't be too hard to add in a little simple text here and there por favor. I mean it's too late. You've already changed it. It'd be pretty wonky to do anything about it now. I just thought you should know Google is a better source for learning than Common Core will ever be. -BRING THE</p>
Community	Community										<p>The district should have extra help at all sites for student's that are not reading on grade level by 3rd grade. Intervention should be taking place at 1st grade until waiting until students fail and are just promoted.</p>

Student	Student	Joseph A. Gregori High								Keeping the school maintained. Having multiple clubs. Decorating the buildings to keep students pumped about school. Providing music during lunch to make school fun. (Thank leadership club)	Having home ec/practical classes, for example get rid of useless classes like dance, drama, so on and keep those as extracurricular activities. Cheering on sports other than football and the varsity teams only Picking teachers who actually care about the students and like their job, for example Mrs.Collins, and Mrs.Taylor. Letting everyone know about every club not just informing them with useless facts Make TRM (teens run Modesto) an extracurricular activity not a club. Those TRM members who are/have been in trm should get one years worth of pe credits considering they run many, many miles over a course or 6 months. Provide classes or peer tutors for those who are failing a class. For example a student who's failing Math might find it easier to learn it from a peer of that same class or year with an A rather than sole senior who learned the topic years ago.
Student	Student	James C. Enochs High								Having a place for everyone	There should be more than just Spanish and French
Community	Community									Encourages community and parent involvement at the site and district level (LCAP) meetings.	More school counselors at every site level. Currently, MCS lags behind even local and other state and national averages with student to counselor ratios. MCS has ratios of over 600 students -1 counselor, as opposed to the national average of 250-400 students to 1 counselor. Why hasn't MCS followed suit? 10 years ago, MCS's ratio was 500-1, it's never gone down since then, even with extra LCAP funding. More school counselors who are trained and certified to work in public schools, not just contracted mental health counselors from the county. With less students, school counselors can do more.
Parent	Parent	Thomas Downey High							None of the above	Stream-lined school day, consistent 6/7 period schedule, allows for daily rigor for tough classes like math/science. No confusing block scheduling.	We need to at least double the ROP programs available to our kids to match the available job opportunities in our region. Right now everyone is on a "college prep" tract, but not everyone wants to go to college. Many kids just want to work with their hands with an honest 8-hour day, and join the workforce. We shouldn't look down upon students wanting to do that, and we currently do.
Student	Student	Wilson Elementary								Math,reading,being a peace builder,assembly, field trips to Gallo Center,and techology.	The playgrounds.
Student	Student	Wilson Elementary								I would never bully others	People never bully others
Student	Student	Wilson Elementary								carnival,open house,spirt week,Dr. Seuss week my class work, the staff,	playground equipment
Student	Student	Wilson Elementary								one thing is writing,feld trips, reading ,computers ,experaments ,art	a no bully zone some grass
Student	Student	Wilson Elementary								I love school	thay should play safe

Student	Student	Wilson Elementary								I like when school staff comes out to make share no one gets hart or bully	i can learn lots of new things
Student	Student	Wilson Elementary								Wilson has asemebes	Math
Student	Student	Wilson Elementary								i am learning math, writing, art, reading.	the school should ad some swing's.
Student	Student	Wilson Elementary								There are usebolys at Wilson.	I would like to see more Usebolys.
Student	Student	Wilson Elementary								wilson go on fald trips to gallo canter	we can develop
Student	Student	Wilson Elementary								to help people and take care of them.	helping people is nice.
Student	Student	Wilson Elementary									Every day we do math and reading
Student	Student	Wilson Elementary								filed trip, music, technology, reading, math, sports	
Student	Student	Wilson Elementary								Want I like to see is that it is just a great school.	What I Want to see at Wilson is no fighting and no mean words.
Student	Student	Wilson Elementary								the great things that I'm learning here at school is the technology, math,science language,reading, writing,typing.	I would like to approve my math,writing,and reading
Student	Student	Wilson Elementary								Wilson's Got Talent, Student of the Month, field trips, computer lab time, and asemebles	prizes, soccer balls, swings, paint the slide, and laptops instead of computers
Student	Student	Wilson Elementary								I larn math at school.	I go to class's at school
Student	Student	Wilson Elementary								a wirting math feld trips ar	
Parent	Parent	Enslon Elementary					Free and Reduced Price Lunch			Survey's such as these do provide a venue in which parents can voice their concerns	After school programs for all schools. Not allow the teachers unions needs/wants out weigh the needs of the students. The recent change in the Spring Break schedule is a good example of what the teachers union wanted outweighed what was best for the student & their families.
Student	Student	Wilson Elementary								Don't know	Don't know
Student	Student	Wilson Elementary								Some Districts of strength is that we learn by one if the BEST teacher.	They should develop trying not to give certain math. Not being tout 2 grades higher than our usually grades.
Student	Student	Wilson Elementary								The district's areas of strength is very clean and up-building. The district has very good schools, well that i could tell of what i know is that they should be recognized.	I would like like to see a little more fairness and maybe better substitutes for the classes. Also even though this might sound unfair i think that older ones should go on more field trips, we have a inner child too and the little kids get to do more fun activities.
Student	Student	Wilson Elementary								its okay	they should develop more math learning
Student	Student	Wilson Elementary								We are good at safe of are school and teachers are really good teacher	I want to see different food for lunch and more reasse
Student	Student	Wilson Elementary								Don't know	More field trips
Student	Student	Wilson Elementary								they always listen to us and are not afraid to tell us what we should change in ourselves to become a better person.	they should develop in how the food is ,i mean please get better food it hurts my stomach which causes me not to pay attention in class.

Student	Student	Wilson Elementary								I believe that my district is doing well in many places, some that I can't even think of right now.	I think that they should try to help students believe more in their career than just, "learn this and you will be fine".
Student	Student	Wilson Elementary								What I'm good at at Wilson is I do my hardest at school and try to achieve my goals.	What I want to see at Wilson is some things that are really special like some great events and more celebrating. something like that.
Student	Student	Wilson Elementary								Honestly I don't think that there are any	I think that the people should not just focus on just the few students that they do when it comes to reinforcing the rules that they have because here the yard duties only focus on the kids that they dislike also I think that the principals and yard duties should try to hear both sides of the story when something happens to a student that another student may have caused
Student	Student	Wilson Elementary								I think my school district is good at keeping the staff and students safe and healthy. I also think that the custodians do a good job on keeping the school clean not only them, us as students have to help them keep the school safe and clean.	One thing I think they can improve on is to give us students more time for recess because when ever our recess is done I can tell that the students still have more energy to waste in their body and whenever they still have more energy they play around in class a lot like getting up in their seat and I'm saying this because this actually happens to me a lot of times in class so that's why I think they should give us more time for our recesses.
Student	Student	Wilson Elementary								In my opinion, I believe Modesto City Schools District strength areas are the Fair. This is an outstanding opportunity to have an amazing experience with your family and great love ones. Another MCS area of strength is Traffic Patrol. Signing up for this keeps our Jaguars safe, and not injured. Lastly, another strength area is celebrating the holidays! This is a perfect idea for the little ones to decorate everything they want for their family. Go Jags!	Areas the district can do better in is lowering the prices for lunch because all my friends don't have enough money for their food. So they just don't eat anything. Another category the district can improve on is MORE PENCILS!!! In my class, we always break our pencils and when we look in the "New Pencil" box, it's full of broken pencils, but no sharpened! Ugh! The struggle is real! One last improvement can be more P.E/ Health Classes! I'm in 6th grade, and we do 100 minutes of P.E a week but no Health Classes until the end of the year. That's only sex education. Please fix these problems!
Student	Student	Wilson Elementary								I believe that the district's areas of strength are that they protect the students, they educate the students on a fairly great level, and they try their best to communicate/understand us students.	The district should develop more help for advanced students, career and/or college help and some more non academic students with advanced natural talents.
Student	Student	Wilson Elementary								math.	sports and P.E
Student	Student	Wilson Elementary								in my opinion I think that the things that the staff and any other families is amazing and the teachers are very supportive on what the students opinion and the staff are just awesome and I love it.	there are many things in my opinion that we can do better at Wilson but one of the things are that I think that we should be able to have a more interesting computer lab and I think that we can also have more activities involving parents and that is my opinion on what I think that we can do better at Wilson.

Student	Student	Wilson Elementary								The district's areas of strengths is our education and support.	The district's areas of improvement is extra activities, more clubs, and students to be treated equally because some of the teachers and staff do not treat all of use like equals some of them treat us with less regard and respect then the way we treat. I know us as the students have to treat our elders with respect but the teachers and staff should to.
Student	Student	Wilson Elementary								robotics,disgusting animals	math,ela,work
Student	Student	Wilson Elementary								The district is very encouraging on students to learn.	They should be more fair with kids. They should also prepare kids for college and what to expect from the real world.
Student	Student	Wilson Elementary								Some of the district is that we learn from the BEST teachers.	I really don't know
Parent	Parent	Fred C. Beyer High							None of the above	I think your decisions are based on money and not the best interests of the students.	There needs to be more discipline, control cell phone use, kids are making out with each other and hugging on each other all lunch period. Girls are wearing short shorts that show their butt cheeks, dress code is not enforced. There is pot and alcohol on campus.
Student	Student	James C. Enochs High								The teachers are the best part of the district.	The district needs to work on being more inclusive and work on preparing students of all levels for life and college.
Student	Student	Wilson Elementary								abc	abc because
Student	Student	Wilson Elementary								The strengths of my school are learning and computers .	My school should develop better rules and better ways to maintain bullying .
Student	Student	Wilson Elementary								I honestly dont know!!!!	In my opinion the district should develop better food, nicer teachers such as Mrs.Puscizna, and definitely play-ground equipment.
Student	Student	Wilson Elementary								people are sometimes mean to me at Wilson Elementary	i would like to see bulling stop at the school
Student	Student	Wilson Elementary								What I like about my school is that it has education	My school should develop the lunch to taste better
Student	Student	Wilson Elementary								Encouragement	helpers
Student	Student	Wilson Elementary								What I like about Wilson School is how Mrs. Puscizna is nice, how it something does not make sense in our class she will go over it again then we will get it.She is a nice teacher the staff people are nice so is our Principle.This is the best school.	When I am in 7 grade and when i come visit Wilson i would like to see every body happy and the school look beautiful no garage on the floor.
Student	Student	Wilson Elementary								The things I like about this school is the computers , game day , education , preparation , and teachers.	The things that my school should change is that we should have more parties.
Student	Student	Wilson Elementary								I don't know anything.	The district should develop to have easier math and harder grammar,spelling,reading for the 4th,5th and 6th graders.
Student	Student	Wilson Elementary								computer litericey	certain tachers
Student	Student	Wilson Elementary								I don,t kowe	I don,t kowe

Student	Student	Wilson Elementary								conpooters	i d k
Student	Student	Wilson Elementary								no more bulling.	no more dram, have deserts like cupcakes,
Student	Student	Wilson Elementary								The district's areas of strength is teachers, education, and discipline	science
Student	Student	Wilson Elementary								Wilson Elementary helps us in every way we have fundraisers meetings and sale stuff for are school and so we can have more field trips.	Not trying to bully others and being respectful to others like,staff,teachers and janitors.
Student	Student	Wilson Elementary								I like to lead	dontknow
Student	Student	Wilson Elementary								Outside activities	Certain things like MORE SHADE!!!!
Student	Student	Wilson Elementary								we are safe	I want more science
Student	Student	Wilson Elementary								fairness no bulling	none
Student	Student	Wilson Elementary								We are clean, we respect others, we also help one another.	none
Student	Student	Wilson Elementary								everywhere around campus	nothing everything is fair and fine
Parent	Parent	John Muir Elementary							None of the above	I am extremely pleased with the teachers and staff at John Muir. There is a real sense of community they have built within the school. I'm pleased that they have counseling onsite and are being proactive in working on, not just the acedimic, but the mental health of our students.	While I'm excited to see the technology coming into our classrooms, there are other areas on campus which need to be addressed. For John Muir and I'm sure other schools face the same problem, our cafeteria is too small for our school. Students have to wait in the hot sun or under eves in the hallways when it rains, until there is room to sit and eat. While this is done efficiently, money needs to be put back into the infustructure of schools and give them the space needed where school's have out grown their current capacities.
Parent	Parent	Joseph A. Gregori High							None of the above	Great Administrative Team. Good learning environment	Many coaches have become bully's. Discouraging good kids from wanting to play sports they love and that is very disappointing.
Parent	Parent	Joseph A. Gregori High							None of the above		Need more teachers who are not burnt out. Some teachers show no respect. Talk to they so rudely. They lead by intimidation. Who want to learn that way....
Student	Student	Grace M. Davis High								advanced technology	better lunch food more teachers for foreign languages technology is bad

Parent	Parent	Grace M. Davis High				Special Education				Communications is fabulous. Website is positive and informative. Trying to meet the needs of so many students is done very well. Opportunity for HS students to work in the community. The many different programs that are offered to high school students. I really admire this.	Having been involved with 2 of our 4 children in special ed ~ 1. having students attend a math class, that is far above their level of learning, has not been a positive experience. The teacher is fabulous, but I feel that much time has been wasted teaching the student algebra, when there are still basics that need to be strengthened. I don't know if there is a math class (basic algebra) is a state requirement. 2. Life skills ~ budgeting, basic finance, credits cards, ways to purchase a car, basics of car insurance, etc. would be fabulous. This is the common sense of life, that students are not taught.
Student	Student	Joseph A. Gregori High									A contract for our lovely teachers who work day in and day out because they want everyone to succeed in life. if you guys can give Mrs. Able a pay raise then you guys can provide the schools with more supplies like tissue, paper, or even hand sanitizer. If you guys aren't going to provide the teachers with more money to supplement what you guys aren't giving them and still expect them to get 200+ students up to standards or above is ridiculous.
Parent	Parent	James C. Enochs High							None of the above	The school district has greatly expanded the opportunities for parent involvement.	Students should also have expanded opportunities to address their concerns about school.
Student	Student	Fred C. Beyer High									Real life skills that will help beyond college
Parent	Parent	Fred C. Beyer High							None of the above		Discipline. Teachers who actually care and are not protected by tenure.
Community	Community									The district has a lot of diversity present within the student population. Additionally, the district is moving to include more technology in the classroom.	District needs to develop a better commitment to student achievement through better selection of teachers and accountability by teachers. Too many seem to just be there to collect a paycheck rather than make a real difference in the lives of students. The after school program needs to grow. All I hear is how wonderful it is to have the program, but that too many students don't get the chance to participate due to enrollment limits. The program can also be used to support intervention that is not coordinated throughout the district. The model used in Ceres is far superior to what is happening in Modesto schools.

Parent	Parent	Bret Harte Elementary	English Learner (EL)				Free and Reduced Price Lunch			<p>I don't see a lot of strength based upon my experiences with the school administrators, especially the two female administrators. They don't seem to really care for children and always have an excuse. Mr. Calderon tries, but he is only one person. The teachers don't really seem to want to teach, but they like to blame the students. I like Mrs. Couchman, but the other teachers seem to think the kids should know the material and don't want to take the time to teach.</p>	<p>Better teachers that really care about their students and making sure they learn. A larger after school program.</p>
Parent	Parent	Fred C. Beyer High							None of the above	<p>Many good teachers Many good administrators High expectations for students</p>	<p>The district should ensure that all high school administrators are preparing librarian schedules /staggering the two schedules to ensure that all libraries are open during the school day and also after school on collaboration days. The assistant librarian could keep the library open during collaboration time. Many students are awaiting teams and clubs and are not able to get into an open library. Two great examples are: Grace Davis and Johansen Libraries. The district needs to hire a librarian at Modesto High School. The district needs to mandate that all math teachers get trained in the MVP curriculum and not have it be optional as it is a newer program and quite different than the old math curriculums. The district needs to find a worthy text book for the common core math. The District needs to have a much better system in analyzing the "work put forth" by district employees i.e. groundskeepers (under the head custodians), and maintenance department. There is a lot of time wasted by standing around and talking. The District needs to look at a new and different style of block schedule. I do not feel that it is in the best interest of students to have a math class three times a week. There are different styles of block i.e. Manteca is one school district that offers a different style and hence is able to fit in more variety of classes for their students. If a student is taking AP classes, there is very little room to take a "fun" class that they may enjoy within the MCS curriculum. MCS should offer more quarter classes which would enable students freedom to choose an "elective". There has to be</p>

Community	Community									You have a quality teaching staff.	Respect for teachers and students. There is too much negative towards the teachers that I hear from board meetings and in the paper. What is with the green shirt thing coming back? The teachers seem upset again about unfair contracts and at the last board meeting I attended I saw a bunch of teachers making good points. It seems like the district does not listen too or value their staff. The teachers I know who work for you state they do not feel supported and that the board does not listen to them?
Parent	Parent	Fred C. Beyer High							None of the above	the district does well to support the bottom tier of students at the expense of the top tier students.	There needs to be improvement is the support of the arts.
Student	Student	Joseph A. Gregori High								The MCS district has many areas of strength like: - Rules & Regulations -Hygiene -Policies	The MCS District should Develop in: -Education - Enforcing Rules & Regulations -Enforcing Proper Hygiene of Campus -Getting better staff for schools
Parent	Parent	Alberta Martone Elementary							None of the above		Character education and recognition of teachers more often.
Parent - Spanish	Parent	Joseph A. Gregori High							None of the above	Se ha mantenido con empeño en apoyar a mi estudiante y el distrito escolar donde mi hijo asiste es de muy buen ambiente	Me gustaría que hubiera más apoyo de parte de los maestros en específico el área de mathematics, que es donde realmente necesitan los estudiantes y siento es una materia difícil
Parent	Parent	James C. Enochs High							None of the above	Many opportunities for AP classes	Bullying is a huge problem that is not adequately dealt with at school. Students are having to switch schools to avoid bully's despite parents notifying the school of the problem. You would think that after the fight between the two girls last year as a result of bullying the school would be much more on top of the situations. But from what I hear bullying is rampant in the school prefers not to do anything. There should be a zero tolerance policy when it comes to bullying.
Parent	Parent	Fred C. Beyer High					Free and Reduced Price Lunch			They are GREAT at calling every single phone #you have listed.	More Career and College Preparation. More Life Skills (Budgeting, mortgage, faxes, etc). Focus on Vocational Careers which are in high demand.
Parent	Parent	Peter Johansen High				Special Education				Communication. My sons high school councilor is amazing. They were also very helpful with my daughter getting scholarships to attend college.	Sex education.
Parent	Parent	Joseph A. Gregori High							None of the above		College counseling, math and science are extremely weak and kids are ill Prepared for college.
Student	Student	El Vista Elementary								Small community school allows students and staff to maintain a close relationship. Teacher and staff know students by first name	Better parking and drop off/pick up routines, extra curricular activities, better field trip options other than Gallo

Parent	Parent	Modesto High							None of the above	We are new to this district. My daughter entered the IB program as a freshmen this year. So, I'm not sure what the areas of strength would be since we have been in this district for a short time. However, I would like to take the opportunity to express my disappointment in not being able to have my son (attends a different district) and my daughter share the same vacation time for Spring break. As a family, we will not be able to make travel plans since my daughter cannot afford to miss instruction from the IB program. As you know, it is a rigorous program. I am a teacher myself in a different district and we live 45 minutes away from MHS, so during my vacation I have to drive her to school everyday. So, I'm sure you can imagine how frustrated I am. If I'm not mistaken, I understand that this is the first time this district has had an earlier spring break. I hope the reasoning isn't for the convenience of state testing. I also hope that the district will take into account what an impact this has made on my family as well as other families who are in the same situation when making the calendar for next year.	\$ for Transportation for students to travel from school to school on game days
Parent	Parent	Peter Johansen High							None of the above	Communications through phone calls and emails, especially from the district office.	Making certain that all teachers understand That free means free in education in California. Some teachers still require students to provide materials to fully participate. Having the policy in place is not enough. They need yearly, detailed reminders.
Student	Student	Modesto High								I feel that the school is safe and clean.	The teachers are very lazy and care about their own job sometimes more than the students. I also feel that there is too much of a penalty for missing PE with an excused absence and the standards can sometimes be too high in that class.
Student	Student	Thomas Downey High								The districts area of strength would have to be their ability to get students to pass their classes	The district should try and improve upon its policies against discrimination for certain groups of people
Parent	Parent	Grace M. Davis High					Free and Reduced Price Lunch			Na	More ways these kids can exceed in their classes if they are struggling with a teacher transfer them to another class if they still are failing then the parent knows to get them help like tutoring
Parent	Parent	Thomas Downey High							None of the above	Good teachers	Anti bullying curriculum at all grades When there is a student bullying others they should have a 2 to 3 week anti bullying program attend and participate in during their lunch period A strong stand needs to be taken

Parent	Parent	Sonoma Elementary							None of the above		Tutoring should begin in elementary.. Math is an area of concern state wide and the only opportunity for help is on line .. tutoring should be provided even if at a cost. By qualified staff that are aware of the every day common core curriculum.
Parent	Parent	James C. Enochs High								Still trying to identify a strength. I can tell you District wide Instructor education with ASD-Autism Spectrum Disorder Students sucks! This should be a mandatory Professional Debelopment traianing for ALL teachers, no limited to resource.	Communication from district to school and school to parents.
Parent	Parent	James C. Enochs High							None of the above	Communication regarding student progresss reports, school events, and safety matters.	Student volunteer opportunities. Modesto City Schools bus transportation has been an issue all year long. No one seems to be looking at the situation.nive complained to principal and several times to transportation manager to no resolution. It not only puts strain on our family to get her to school at the last minute when bus is late without warning, but places enormous stress on our my daughter who is a 4.0 student. When she is late she misses precious school time and teachers get frustrated with her. This happens 2-5 times a month. Everything else seems great so far.
Parent	Parent	Sonoma Elementary							None of the above		The district has a weak disciplinary system. As a parent, I sign the conduct code and we talk about it at home. I do not feel like the district enforces the conduct code.
Parent	Parent	Alberta Martone Elementary							None of the above	Communication through phone calls, emails, newsletters.	Technology- students should be exposed to technology on a daily basis. Students and teachers should have access to technology within the classroom, not just in a computer lab.

Parent	Parent	James C. Enochs High							None of the above		<p>CSF (California Scholarship Federation) is something that a child strives for and there is currently no incentive or reward to be a part of the program, other than the "pinning ceremony" during graduation. Several other school districts in the surrounding area provide trips to visit college campuses at least once a year and an incentive/reward trip (amusement park or beach). Even CJSF in Sylvan school district provided college visits at Savage MS. I would also like MCS district to look into more service programs and network with area businesses where kids can volunteer or be interns. It would also be wonderful if MCS would consider hosting a regional conference for CSF here in Modesto. Additionally, I am concerned about the lack of diverse foreign language opportunities within Enochs HS. The Spanish classes are impacted and I believe limiting our childrens educational opportunities in this area is shameful. Basically, if you do not live in the Davis HS district or choose not to attend Davis HS, you are not awarded the opportunity to enrich your vocabulary with any other language other than Spanish. It also affects those students continuing on to a UC campus. Restricting the foreign language opportunity to only Spanish does not make sense. Thank you for your consideration.</p>
Parent	Parent	James C. Enochs High							None of the above	Rules only apply to certain students. Teachers do not control classroom environment. Teachers treat good students badly.	Vocational trsining
Parent	Parent	La Loma Junior High							None of the above	Teachers are your strength, they are very caring.	<p>Junior highs need more sports, especially softball. Softball has grown in Stanislaus county and our district is the only one without girls softball. There is an increase in boys volleyball that would be played in the spring. Please always put the students first, district tends to forget about the students and focuses on numbers, example how you hire teachers at each site.</p>

Parent	Parent	La Loma Junior High					Free and Reduced Price Lunch			<p>I can't truly think of any. The schools hands are tied when it comes to teaching our children in this day and age. I don't blame the teachers in general. The way this district rolled out the common core program was different then other districts and I know this 100%. The way this program was rolled out ruined my childs confidence in the way my child learns when never having an issue before. It was at a pivotal grade level and my child is still trying to find the confidence that was there before. The way our children are able to use cell phones at school and do terrible things with them "my child has learned horrible things from going to school amd seeing these things from other students and their phones" I'm disgusted by this. I know that teachers have their hands tied in taking phones away and disciplining children "mostly because of parents unfortunately." I think parents and students should sign contracts that state these issues so if the children do or act certain ways at school they can be punished without the school fearing a frivolous lawsuit. There's much more but my words I've already learned aren't liked or accepted by the majority.</p>	<p>Making students and parents fully responsible for the way the students are acting in this era and the actions they create. They shouldn't be allowed to anything at school other then learning. Not being online allday with useless nonsense. What ever happened to books and actual learning and comprehension rather then copy and past and works done???</p>
Parent	Parent	Lakewood Elementary							None of the above	<p>Teachers are the core and are very caring. They usually go above and beyond with the limitations they have.</p>	<p>Bottom line, district needs to put students first. District tends to get stuck on numbers instead of what is best for students. At the junior high level, there is no girls softball, this sport has grown within the county and we are at a disadvantage to other districts in both the junior high level and high school level. Boys volleyball has also increased within our county in the spring. Also, the other junior highs have foreign language and we still have not returned this important curriculum. High schools focus too much on college readiness, we also need to prepare our students to career readiness in the core classes. College Prep should be at the freshman and sophomore level to leave no one behind, but at the junior level, students should have a choice to continue college prep or career prep in English and History.</p>
Parent	Parent	John Muir Elementary					Free and Reduced Price Lunch			<p>Lots of parent involvement opportunities</p>	<p>Less bullying</p>
Parent	Parent	James C. Enochs High							None of the above	<p>There are some teachers that are great and some aren't great. I would like to see better evaluation in the teachers. Also, it is disappointing that better coaches aren't picked for sports.</p>	

Parent	Parent	Roosevelt Junior High				Special Education	Free and Reduced Price Lunch	Counseling Services		Unknown	
Parent	Parent	James C. Enochs High							None of the above		Assisting students who are not interested in sports and are introverts find things they are good at, which can help them relate more with their peers.
Parent	Parent	Thomas Downey High							None of the above	Keeping track of attendance	Helping the students figure out their interests & what kind of careers they want to pursue.
Parent	Parent	Joseph A. Gregori High							None of the above	The teachers in this district are phenomenal.	We need to continue to dedicate all extra resources to bringing technology to the children's education.
Parent	Parent	Enslin Elementary									Diversify the school board, move board meetings to space that can accommodate more attendees, improve customer service of front line staff at school to ensure parents feel more welcome, integrate gate/enrichment programs at all school sites, consider community in schools model.
Parent	Parent	John Fremont Elementary							None of the above	Math and arts	Career path
Parent	Parent	Joseph A. Gregori High							None of the above	None	More classroom walk through a rather than a two minute sit down and not to tenure every teacher because half of them should have been fired ten years ago.
Parent	Parent	James C. Enochs High					Free and Reduced Price Lunch				I think that the bullying issues by both teachers and students need to be addressed. I also think more positive reinforcements need to be in place instead of these kids always getting into trouble. Also I have one in college, a senior and neither were ready for college or the adult life. They need to bring back more life skill learning and stop with all the other crap. Like working on cars,cooking, finances etc

Parent	Parent	Lakewood Elementary							None of the above	I appreciate being asked for my thoughts and feedback. Our principle at Lakewood is very open and available. My child has had amazing teachers!! They teach well and care about the students. There are a lot of activities available at Lakewood and the art program is wonderful! Love AR and I-Ready.	1. Communication with parents on how we can get involved at the district level 2. Improved computer literacy: For successful employment, students must know how to use software like Microsoft Office and they need to learn basic programming skills before graduation. Teach one programming language throughout their education so they achieve competency. It is easier to learn a second language once you know one. It has to become more of an emphasis and a priority. 3. We need a new math curriculum. 4. Middle schools and Junior High schools have poor reputations and outcomes. We need to start looking into K-8 schools. Lots of research supports moving to K-8 schools. 5. School calendar - needs more parent input. I like having time before Christmas to do Christmas activities with my children, take them shopping so they can buy gifts, etc. Having winter break start on 12/22/17 is too close to Christmas. It would also be nice to have the whole week of Thanksgiving off. Extend the school year if necessary. Spring break should follow Easter so kids don't have to come back to school the Monday after Easter. I hope I don't sound like I am complaining. I tried to offer suggestions that you may find helpful. Thank you for asking for our thoughts.
Parent	Parent	Fred C. Beyer High							None of the above	Administration in highly out of touch with everyday school issues. They need to step back in the classroom and remember what reality their schools face daily! Maybe then they could make helpful decisions!!!	Early Intervention programs that have been proven through many years of research to be the only thing that works with struggling students... today they are non existence in our district. Such a sad excuse for our leaders to not have this to help our students!
Parent - Spanish	Parent	Bret Harte Elementary					Free and Reduced Price Lunch			Capacitaci3n de los maestros en cada materia que les imparten a los alumnos.	M3s libros en espaol en la bibliotecas para los ni os del programa dual.
Parent	Parent	Wilson Elementary					Free and Reduced Price Lunch				There should be more programs available for kids who are struggling in school. Programs that will really help a student progress academically and for staff to take any bullying in a serious manner and not just brush it off like it's nothing.
Parent	Parent	Alberta Martone Elementary							None of the above	Modesto City Schools provides excellent teachers and administrative support which is the backbone to any great school!	I have no complaints.

Parent	Parent	James C. Enochs High							None of the above		Teachers at my child's school don't embrace the district goals and values. They are very vocal about this and tell students. Also teachers need more professional development in the areas of social and emotional learning. My children have all felt defeated at the hands of high school teachers. I can name only 4 teachers that have made a difference and been excellent for my children and I've had two children go through high school.
Parent	Parent	Thomas Downey High							None of the above	AVID Program	AVID should be implemented at all High Schools and junior highs. Increase opportunities for parent involvement.
Parent	Parent	Joseph A. Gregori High							None of the above	Programs that appeal to a variety of interests; forensics at Enochs, Digital Media at Gregori, Dramatic Arts at Downey, etc.	The District needs to properly vet and train athletic coaches. Coaches show extreme favoritism and have poor communication skills. They do not model responsible behavior for student athletes. The Athletic Director is completely hands off and allows the coaches to treat student athletes poorly.
Parent	Parent	James C. Enochs High							None of the above	Preparedness Character Building Extra Curricular Opportunities Open House	College Guidance College Awareness for Parents CC Awareness for Parents
Parent	Parent	Modesto High							None of the above	My daughter is enrolled in the IB program at MoHi and is receiving an excellent education.	Because my child is in the full IB program I do not feel that I can speak generally about her school, nor the experiences of students/parents not involved in IB. It is somewhat insular in nature and I suspect other parents/students at MoHi have very different perspectives.
Parent	Parent	Joseph A. Gregori High							None of the above		Gregori High needs a pool so that athletes can practice at their site at a reasonable time. All other high schools in the district have pools. The schools without stadiums still have practice fields where football players can practice right after school. They only have to travel for games. We are driving student athletes across town, in traffic, for practices between 5-8pm. This makes family dinners, homework, and reasonable bedtimes difficult.
Parent - Spanish	Parent	Peter Johansen High					Free and Reduced Price Lunch				Más oportunidades de una carrera en la escuela
Parent	Parent	Thomas Downey High							None of the above	Well maintained, good parent communication.	Preparing students for the real world. Training teacher's how to be more approachable to students and helping them find solutions/help when they express concerns. High School students should feel comfortable talking to their teacher's without parent intervention.

Parent	Parent	John Fremont Elementary					Free and Reduced Price Lunch			*Public Information Officer-Becky Fortuna, I have felt better informed about opportunities to participate since she has taken office. *Mostly hires quality and qualified staff	The district should Really listen to parent input about their child, school, principals, teachers, staff, activities, recess, lunch, bullying etc... perhaps give surveys to get real feedback about each of these topics to each child's parent.
Parent	Parent	Fred C. Beyer High							None of the above	I'm not very familiar with the district, but my child is doing well at Beyer. I'm happy with Dan Park and staff (especially Mrs. Gill).	Character education, life skills, trade skills and college/career preparation.
Parent	Parent	James C. Enochs High							None of the above	Opportunities for parent involvement and programs for students.	From a parent standpoint and having a child who communicates with me regularly, I believe many of the teachers need more support. More than one of my child's teachers are often moody and take out on the entire class their frustrations. They need to learn to keep their students in line and develop processes/procedures and consequences that will make the students respect them and do what they are there to do and that is learn! All students are affected by this.
Parent	Parent	Modesto High							None of the above	The IB program at MoHigh is fantastic. Challenging and also socially enriching.	Life skills are sorely lacking in kids entering the work or college scene. For example, paying bills, writing checks, responsibly maintaining credit cards, basic bookkeeping for personal finances, etc.
Parent	Parent	John Muir Elementary							None of the above	Communication and public comments available at board meetings	Plans carried out to assist the under-served populations that involve those that can represent those populations
Parent	Parent	James C. Enochs High						Counseling Services		Not really aware of any besides school needs	Better communication between boosters, school needs etc
Parent	Parent	Joseph A. Gregori High							None of the above	We are overwhelmingly happy with Gregori High School and the level of commitment the Teachers have in their students success.	Non-AP class Teachers don't seem to be as involved or "care" about the students success as the AP classes. Getting a teacher to respond or get a student out of a class seems to be difficult. Opportunities for college visits even through the summer should be a focus. We visit on our own but many kids don't have that opportunity.
Community	Community									Hiring dedicated teachers	Give teachers right tools at the right time to be successful. Address all learning styles. Not all students are AP students. Offer classes that will engage along with required classes
Parent	Parent	Thomas Downey High					Free and Reduced Price Lunch	Counseling Services		I believe there are good sources in place.	Teacher training to get more involved with students and actually pay attention to their learning and try to help them not only lecture and ignore. Students really need extra help from teachers and are not getting it.
Student	Student	Peter Johansen High								To much teachers rights and not enough students rights.	More help with students in resource and better was of taking attendance like the clicker method that they use in college.

Student	Student	Peter Johansen High								To much staff control and not a lot of background checks and too much teachers rights.	More of students rights and priorities, also better attendance taking methods like the clicker method that they use in colleges.
Parent	Parent	Modesto High							None of the above	Can't think of any.	Teachers should be more helpful and available. They should not be intimidating. Parents shouldn't be discouraged indirectly by teachers to come and approach them. Counselors should do more work instead of just sitting there and they should be available at all times. Students should be guided and supported. College counselors should be available at all times.
Parent	Parent	John Fremont Elementary					Free and Reduced Price Lunch			The Fremont Open Plan Program.	There should be morÃ© bilingual education.
Student	Student	James C. Enochs High								Treats their schools with kindness and let's their schools get what they need most.	Nothing.
Student	Student	Peter Johansen High								Modesto City Schools have a great communication between administration, teachers, students, and parents. I find that Collaboration Days play a big role in developing curriculum, and understanding different view points of other staff members.	I believe that Modesto City Schools should develop on is the use of technology and connectivity. I would like to see the use of technology in the classroom to show what other web sites are great for a students resources. At Johansen, the wifi is hard to connect to not just with student's phones, but teachers computer and the stream beam is also hard to connect and take precious class time away from learning trying to solve these problems.
Parent	Parent	Fred C. Beyer High							None of the above		Tip line that the students can report illegal activity, bullying. Students have not been protected when reporting illicit activity and it makes it worse for the students. My child and other students don't want to report crimes on campus. The district should instruct administrators to keep the reporting students anonymous.
Parent	Parent	Peter Johansen High					Free and Reduced Price Lunch	Counseling Services		They are doing fine	The use of technology
Parent	Parent	James C. Enochs High				Special Education				Good variety of AP classes, dedicated teachers, nice facilities	High schools need more counselors. It's almost impossible to talk to mine, and I never get a satisfactory response. They are focused on kids who are failing and don't have time for kids who are succeeding.
Parent	Parent	John Fremont Elementary							None of the above		This is my first year having a child enrolled in the district. As far as the school is concerned, I feel comfortable with the level of communication I have received to maintain informed about what is happening there but I have received very little information from the district and I am not entirely clear how I could be more involved in the decision making process on that level.

Parent	Parent	Modesto High							None of the above	Good communication Excellent teaching staff	Technology integrated into all academic areas
Parent	Parent	James C. Enochs High				Special Education				I feel we need more trades being taught, like mechanics, construction and technical skills for kids that will thrive in those areas. All children are not going to a four year college, and clearly our community can't support those that do.	Mechanics and construction
Student	Student	James C. Enochs High								Can't say for sure	In providing more classes in life skills and more classes to teach medical skills
Parent	Parent	Fred C. Beyer High							None of the above	Coordinating the Easter breaks with their feeder school districts. We cannot take a family vacation!!
Parent	Parent	Sonoma Elementary							None of the above		Offering after-school programs at all schools.
Parent	Parent	Sonoma Elementary								This district has very good field trips.	Both elementary schools my students have attended stress perfect attendance so much that my students cry and want to go to school when they are contagious, have a fever, or are vomiting. This is not healthy for either the sick child or the well children at school. Also, exposing MORE children to illness is counterproductive to your goal of higher attendance. Children should be encouraged to go to school, but told that if they are actually sick, it is okay for them to stay home. The kids that care about perfect attendance are emotionally upset about having to stay home under the current policy and the kids who DON'T CARE, well, they just don't care--so why torment the kids who do care and are legitimately sick.
Student	Student	Grace M. Davis High								The district is good at building schools that we do not really need.	Standards, some kids with a 1.3 shouldn't be able to disturb a class that is trying to learn. The district should also look at restoring old schools and investing money into them rather than making new ones. I also believe that the school zones for where a student is supposed to go to school should get renewed because there are people that live near Grace Davis High and they are apparently in Gregori's district.
Parent	Parent	James C. Enochs High							None of the above	AP program	The arts and STEM. High schools should offer the same and more electives
Parent	Parent	Fred C. Beyer High							None of the above	The phone system keeps the parents in the loop of knowing what is going on and deadlines that need to be met.	Better communication between parents and teachers at High School level. Need to improve on coaching stipends for non-teachers...It's hard to get good coaches, and not just a parent like myself!
Parent	Parent	Grace M. Davis High					Free and Reduced Price Lunch				Preparation for the future of students.

Student - Spanish	Student	Harriett Kirschen Elementary									Buenos maestros
Parent	Parent	Modesto High							None of the above	I feel that low income families receive more support and benefits than middle class families.	Give the same support and opportunities to both low and middle class families. Everyone should be able to eat "free" school lunch or pay the same for school exams regardless of background.
Student	Student	James C. Enochs High								I feel that the district is very good and getting important information out when needed and provides a lot of different opportunities to students.	I feel that the district should leave common core. Especially common core math.
Parent	Parent	Joseph A. Gregori High							None of the above		Communication between parents and school
Parent	Parent	Alberta Martone Elementary							None of the above		PTO website surveys and updates.
Parent	Parent	Fred C. Beyer High							None of the above	There is ample opportunities for students in terms of course offerings.	Improved teaching in the classrooms.
Parent	Parent	Lakewood Elementary							None of the above	The teachers are the #1 greatest area of strength. MCS must never forget that or take it for granted. The teachers make my kids' school great.	Meaningful and teacher-driven professional development in regard to project-based learning.
Parent	Parent	James C. Enochs High							None of the above	Inside of Enochs HS school buildings are clean. Most EHS teachers perform well. EHS provide a good variety of extracurricular activities.	EHS should allow time for thorough announcements about school and extracurricular activities. Enforce student cleanliness of outside school grounds.
Parent	Parent	John Muir Elementary							None of the above	phone calls to inform or remind on minimum days, or other events; some time children to bring the information with them or they miss placed it	later hours after 4pm for parents meetings some parents work far and is not easy to attend early meetings
Student	Student	James C. Enochs High								I Think they have really good staff but the way of teaching absolutely 100% sucks! (HONEST AS HONEST CAN BE)	It should provide more skills for life rather than a test at the end of the week!
Student	Student	James C. Enochs High								I feel like they are very strong in trying to teach us best	
Student	Student	Burbank Elementary								more fun thing in school	we need more stuff
Student	Student	Burbank Elementary								The best thing in the school is learning and being nice to other people.	helping other people
Student	Student	Burbank Elementary								The best thing is the filed trip	i want to improve going home erly
Student	Student	Burbank Elementary								more fun things in school	we need more stuff
Student	Student	Burbank Elementary								we do math really good.	we should be developing more writing skills.
Student	Student	Burbank Elementary								no	no
Student	Student	Burbank Elementary								The best thing that we are good at is math. . ..	We need to improve on is writing.
Student	Student	Burbank Elementary								I think we are strength good at math and other thinks.	I think we need more ativtys for us
Student	Student	Burbank Elementary								The best thing of my school is games.	We need to upof on cherectertat.

Student	Student	Burbank Elementary								we are good at writing	The rules are to strict.
Student	Student	Burbank Elementary								The rules are to strict and have more computer time.I want to learn more math until the end of the day!	They should develop the playgrounds.
Student	Student	Burbank Elementary								I think the best thing about school is we get school supplies.	I think I want the school to improve on is math.
Student	Student	Burbank Elementary								My school is good.	My school is good,but maybe we could have more trips.
Student	Student	Burbank Elementary								to go home erly	
Student	Student	Burbank Elementary								The things I like about school are the yard that we play in	The thing that the school should develop is the math
Student	Student	Burbank Elementary								I think the best thing about school is get free lunch	I think more time for computer
Student	Student	Burbank Elementary								The best thing about school is free time,two square.	The thing that we can do is rules.
Student	Student	Burbank Elementary								the school needs to help us learn.	the classrooms need more space.
Student	Student	Burbank Elementary								good at math	the rules are to strict
Student	Student	Burbank Elementary								what i like in school is that the teachers wants their students to learn more stuff.	what my school needs is that kids need to be more respectful to their teachers.
Student	Student	Burbank Elementary								The best thing is the computer lab because I love to type on typing agent.	The thing the school needs to develop is the playground
Student	Student	Burbank Elementary								The best thing about my school is that free time,two square.	The thing that my things beater rules and more reces
Student	Student	Burbank Elementary								the schools strength is math.	give us a little more recss because kids want to play a little more.
Student	Student	Burbank Elementary								The school halep us.	We need more hands on ativtes .
Student	Student	Burbank Elementary								More fun activies in class	More time in computer lab
Student	Student	Burbank Elementary								What i think about my school is that they give us free breakfast and lunch we don't have to buy stuff they have the stuff that we need.	One thing i want to improve on is that i want to improve in math because its kind of hard
Student	Student	Burbank Elementary								i am happy because the workers are making a new playground.	
Student	Student	Burbank Elementary								resornes,free luach, and the buys all the scool spolhas.	More copnher and art for all the gamdes.
Student	Student	Burbank Elementary								I like the math at my school!	more art in our school becuas we do not have art
Student	Student	Burbank Elementary								the best thing about our school is that they have book fair and that is my favorite thing about our school	we need to work on our math it is really low and we need to do that we need to do that because we need to know what our multipule cashen
Student	Student	Burbank Elementary								TO GO MORE EARLY HOME.	
Student	Student	Burbank Elementary								free barefaced pencils school supplies	more yard equipment
Student	Student	Burbank Elementary								the best thing they do is they make lunch for us	i want to work on math and reading
Student	Student	Burbank Elementary								get free lunch.	i want to improve in writing.

Student	Student	Bret Harte Elementary								I like about this school is there computers in class. also I enjoy there thing they host 3 times a years only if you behavior is good at school.	I think they should more worry about there health and how to make it go lower. Also make better lunches some cant eat pork because of relish things and some can eat peanut butter.
Student	Student	Bret Harte Elementary								soccer basketball tetherball	softball kickball tag
Student	Student	Bret Harte Elementary								idk what am a post to do	ummmmmm
Student	Student	Bret Harte Elementary								Community	Society
Student	Student	Bret Harte Elementary								I am smart but i dont know what this question means FAXX Peter 2017	No clue
Student	Student	Bret Harte Elementary								I like the sports and the reading.	They should put more sports and fun activities.
Student	Student	Bret Harte Elementary								I like the sports and P.E.	They should improve on the nets for our soccer areas
Student	Student	Bret Harte Elementary								Strong academic support	The district should develop more technoligy skills
Student	Student	Bret Harte Elementary								Some areas of strength are the district is trying to create a fun and safe environment for students to feel safe and have fun while learning academic work. I also think the district is now trying to help scholars with social programs and environmental programs.In conclusion my opinion on the districts strength is outstanding in most parts.	The district is outstanding in most parts but there are some things the district can change. Like how at lunch we sometimes only get certain things without sides. like the pulled pork sandwich with no sides some kids cant eat pork so they go hungry or some times the school runs out of food so they give us whatever they can find to feed us like a "grilled cheeses sandwich" witch was hard bread and cheeses sandwich
Student	Student	Bret Harte Elementary								clean school,after school program,teachers are nice, principles,computer lab, library,staff,renaissance, beep club, steam, music performances,	should work on bathrooms more attention to students,having healthier food and different drinks like water cause some students don't drink milk, gum chewing, water
Student	Student	Bret Harte Elementary								Don't know and don't care	They should develop every thing.
Student	Student	Bret Harte Elementary								dont know and dont care .	they should develop every thing.
Student	Student	Bret Harte Elementary								what i like from this school is when we do the renaissance because its really cool and its really fun.	what i dont like from this shool is teachers are somtimes mene
Student	Student	Bret Harte Elementary								reading	matgh
Student	Student	Bret Harte Elementary								i dont know	i dont know
Student	Student	Bret Harte Elementary								p.e ,teaching ,cleanness, staffs, music classes, and after school class.	work more better on more fun racers for the school and more fildtrips.
Student	Student	Bret Harte Elementary								I like about the school is that there is new computers and a new website	not sure
Student	Student	Bret Harte Elementary								i don't know	I don't know
Student	Student	Bret Harte Elementary								I like somethings at school but not all.	
Student	Student	Bret Harte Elementary								what i like from this is the beep buck store.	what i don't like from this school is some teachers

Student	Student	Bret Harte Elementary								ggggggggggggggggggggggggggggggld.	
Student	Student	Bret Harte Elementary								some things i like at school is going out to recess	i don't like to go to computers
Student	Student	Bret Harte Elementary								the peace path , beep store, & the peace path are OK.	we should have activities
Student	Student	Burbank Elementary								the best thing is learning.	helping other people.
Student	Student	Bret Harte Elementary								some thing i like at school are going to recess and after school program	i really don't like nothing
Student	Student	Burbank Elementary								no	no
Student	Student	Burbank Elementary								we need to know math we like the book fair	we need to know math
Student	Student	Burbank Elementary								the school needs help learning	the classrooms need more space.
Student	Student	Bret Harte Elementary								My name is bryan	Bryan is coolBryan is cool Bryan is Bryan is coolBryan is coolBryan is coolBryan is coolBryan
Student	Student	Bret Harte Elementary								this school is good becuse there is basketball	
Student	Student	Bret Harte Elementary								mor	to bring phone.
Student	Student	Bret Harte Elementary								strong academic support	the district should develop more technoligy
Student	Student	Bret Harte Elementary								I don't get district at school.	nothing should be develop because every thing in school is fun to play with.
Student	Student	Bret Harte Elementary								I like school becos it holps me and my kuskus	
Student	Student	Bret Harte Elementary									ther should be a more school trips for students!
Student	Student	Bret Harte Elementary								What the modesto city school is good at is of having good teachers that help you learn.	Modesto city schools need to work on the playground.Also they have to get a net for the soccer field.
Student	Student	Bret Harte Elementary								That the teachers helps us alot.	They should help us cook.
Student	Student	Bret Harte Elementary								good	more recess
Student	Student	Bret Harte Elementary								Modesto City Schools has good classrooms.	Modesto City Schools needs to work on getting a bigger playground. Also they need nets for soccer and more equiptment.
Student	Student	Bret Harte Elementary								This school is good because it has a lot of good thinks to play outside basketball	
Student	Student	Bret Harte Elementary								Modesto City Schools has good class rooms.	Modesto City School needs to work on getting nets for the soccer field.
Student	Student	Bret Harte Elementary								some thing that I like is the play ground.	I do not like some people that are mean.
Student	Student	Bret Harte Elementary								staff and teachers	
Student	Student	Bret Harte Elementary								I like reading books in this school.	I wish they add a club.
Student	Student	Bret Harte Elementary								yo piosos que la escuela es guena porque ai mucha jente cuidada y muchos ,aestros	yo piosoque puedo mejorar un poco
Student	Student	Bret Harte Elementary								recess	basketball

Student	Student	Bret Harte Elementary								this school is fun but we need a little bite if more stuff	we just need a little bite more stuff that's all
Student	Student	Bret Harte Elementary								my favorite thing at school is library because it is nice to read and learn new things from books.	my favorite staff is Mrs. Castillo and Mrs Jimenez
Student	Student	Bret Harte Elementary								i like recess	more field trips
Student	Student	Bret Harte Elementary								i like resors and my 5th grade tacher	i do not like wen thay bully me
Parent	Parent	Peter Johansen High							None of the above	Offering College Counselors for students (and their parents) who are college bound is outstanding. It would be even more beneficial if there could be a career counselor (similar to the college counselor) who works specifically with 7th - 10th grade students to help them start thinking/planning for life beyond Modesto City Schools.	The district needs to stop assuming all students are college-bound. College is NOT for every student. The AP and CP level classes have been watered down by forcing students who have ZERO desire to move into higher education. Please, for the sake of ALL students bring back non CP classes, especially in math! Too many students suffer and hate school because they don't get Secondary Math 1 and struggle to even graduate. There needs to be math and English paths for students who are NOT college bound. The district also needs to work on equality between the high schools. Being able to school shop should not be allowed. Stop allowing the rich to get richer. Schools that have better athletics draw strong athletes and other schools suffer. The schools should be enrolled equally, period. If there are 14,000 high school students in the district, a school should NOT be allowed to enroll over 2,000. If a new family moves in, they should be given information on the closest school that has room. It is seriously wrong of the district to have schools at 2,500 and 2,600 students and other schools at 1,500 and 1,600. The schools with fewer students are automatically at a disadvantage because there are fewer athletes, fewer elective offerings, even fewer academic offerings simply because there are fewer students. If school enrollment isn't going to be better regulated by the district, the schools with fewer enrolled should not be punished. Since everything seems to be based on money - the district should better protect ALL schools and keep enrollment equal
Student	Student	Bret Harte Elementary								loklo,ol,lkollo!ml,	
Student	Student	Bret Harte Elementary									
Student	Student	Burbank Elementary									Make the food better, make the bathrooms smell better and make kids flush the toilet, have more sports.
Student	Student	Burbank Elementary								no more bullying	they should have more basketballs and other things that we could play with.
Student	Student	Burbank Elementary								The school district does a good job of getting technology	I want to see better buildings
Student	Student	Burbank Elementary								have a lot of classes and schools.	food,file trip,the bathrooms

Student	Student	Burbank Elementary								Got new computers	the caffatera food
Student	Student	Burbank Elementary								buy the computer	make the food better
Student	Student	Burbank Elementary								Most of the teachers and staffs are mean.	i would like to see more space in the school areas and more
Student	Student	Burbank Elementary								the district idea that i liked was buying more computers.	I want the district to develop more recess time
Student	Student	Burbank Elementary								The areas of Strength is okay to other school districts	I would like to see more space in the school areas and more free time at recess
Student	Student	Burbank Elementary								more computers	I like to see more time in computer class.
Student	Student	Burbank Elementary								having some teachers that make learning fun.	Not to only to do only math and language arts and think should do other things.
Student	Student	Burbank Elementary								Buying modern technology for modern skills.	Using technology in the classroom more instead of once a week.
Student	Student	Burbank Elementary								the district is powerfull	funn activiteas
Student	Student	Burbank Elementary								more computers	I like to see more file trips
Student	Student	Burbank Elementary								The things that have lots of strength are computers	The things that need more work are at cleaning the school, Have more fun/Recess
Student	Student	Burbank Elementary								The teachers and yard duties are mean.	They shouldn't be mean.
Student	Student	Burbank Elementary								There is a lot more computers for the classrooms.	We need more time at the computer lab.
Student	Student	Burbank Elementary								The school is good at providing field trips.	The school should provide more exciting field trips.
Student	Student	Burbank Elementary								no bullies	i want to have field trips more
Student	Student	Burbank Elementary								more free time	i like to see more field trips :)
Student	Student	Burbank Elementary								recess	more time recess and get four times of recess.
Student	Student	Burbank Elementary								good job on buying technology	more time on computers
Student	Student	Burbank Elementary								The school district's has done a good job of getting computers.	Make the food better.
Student	Student	Burbank Elementary								they brought new computer for us to use	see more computer lessons
Student	Student	Burbank Elementary								The school disrtict has done a good job building new places an classes for the school.	They should have better food
Student	Student	Joseph A. Gregori High								my schools strength is making students fell welcomed	they should help with students bullying special needs students
Student	Student	Burbank Elementary								they did a good job on putting new computers.	They should make the food better.
Student	Student	Burbank Elementary								good on buying technology	more time on technology
Student	Student	Burbank Elementary									The bathrooms and the classrooms and also the cafeteria food.
Student	Student	Burbank Elementary								Good job cleaning the school	Get better food

Student	Student	James C. Enochs High								The district does their best to make sure the schools are safe and children are learning. There are many extracurricular activities students can choose from and the district does a good job at engaging students.	The district should put more importance on teaching students life skills like how to raise a child, how to cook, how to pay bills and taxes, and other things kids will have to know as an adult.
Student	Student	Joseph A. Gregori High								I think most of the AP teachers at my school are great.	I think the district could pick better principals who actually care about their students, like not Brad Goudeau.
Parent	Parent	John Fremont Elementary				Special Education	Free and Reduced Price Lunch				I don't know if it's the right place right this but when I was in school each grade had a field trip at least one a year and sometimes twice a year if you could make that happen at least in the elementary schools that would be awesome
Parent	Parent	Joseph A. Gregori High							None of the above	The district wants to help the student at school but I believe that the district needs to take the needs of the student a little further. Sometimes students needs go beyond the time at school. The district might think about extending their services after school to a certain degree in order for the child and parent to feel at ease to share more of where they need support; academically or socially.	After school student and parent support, more opportunities for parent involvement; time-wise, more strict rules on student dress code and cell phone use.
Community	Community									I have always seen great teacher involvement in MCS. They go out of there way to insure that students success is achieved though support from the school, and by school I mean the teachers.	Real time work experience and vocational education should be experienced at all levels of education. All students need a high school diploma, but not all students need a college education to succeed in life. Metal and woodshop need to be brought back into the schools, along with programing and technology education.
Student	Student	Grace M. Davis High								the district's strengths are the district's allow kids to go to school without paying tuition.	I don't think the district should develop anything it's fine how it is right now.
Student	Student	Bret Harte Elementary								My friends and my besties.	The teachers like mr c.
Student	Student	Bret Harte Elementary								i like the after school program	we should have are own computer
Student	Student	Bret Harte Elementary								The district's areas of strenght are the books,the teachers ,the activities ,and I really like the educational way of teaching.	Something that the district should work on is to give us our own computer , they should give better food,and they can work on better pencils.
Student	Student	Bret Harte Elementary								My counselor is nicer than my teachers	The food should be better way better taste,smell.
Student	Student	Bret Harte Elementary								I like the STEAM club. I also like our nice teachers that give us good and grade level work.	I would like the school district to give us computers and that way if we are in home we could learn more.
Student	Student	Bret Harte Elementary									Some thing i want this school to do is let us take a lop top home and insted of home work in the paper do it in the computer.
Student	Student	Bret Harte Elementary								what i like from this school is that teachers are nice with students	something i want this school is let us take the laptop home
Student	Student	Bret Harte Elementary								The teachers on our school are nice to us.	Give us tablet to have .

Student	Student	Bret Harte Elementary								The teachers are very nice and patient in our learning. There is hardly any bullying.	We SHOULD have our own computers. Better food.
Student	Student	Bret Harte Elementary								The district areas of strength are language arts, math, and music.	I want my own computers like Ceres we can use it in class and not only in the computer class.
Student	Student	Bret Harte Elementary								the district's areas of strength are not very high	the district should develop more enrichment classes
Student	Student	Bret Harte Elementary								The district's areas of strength are in computer programs, math, and reading.	They can give us laptops or computers that we can take home and do computer homework.
Student	Student	Bret Harte Elementary								computer class	helping other teachers
Student	Student	Bret Harte Elementary								The teachers in our school are good.	Take computers home to do homework or search something for a project.
Student	Student	Bret Harte Elementary								The school has good rules.	To bring candy at school while school.
Student	Student	Bret Harte Elementary								I like this district because I get to see my friends.	More counseling for students.
Student	Student	Bret Harte Elementary								soccer	take computers at home to help with stuff that are hard at home.
Student	Student	Bret Harte Elementary								Some schools let them take computers to their homes.	Let us use phones and tablets or computers in our free time. Another thing is maybe put more games in our school like or play grown-up stuff like swings and more games.
Student	Student	Bret Harte Elementary								One thing in these schools is that they have soccer.	One thing that we'll be able for these schools is that let you use are laptops, tablets, and phones.
Student	Student	Bret Harte Elementary								Some schools let the students take the computer to their homes.	Let us use phones and tablets.
Student	Student	Bret Harte Elementary								I like the free time that they give us.	We should have our own computer.
Student	Student	Bret Harte Elementary								something that I like about the school is the playground	the school can give all of the kids a computer and more bouncy balls.
Student	Student	Bret Harte Elementary								I will like my own computer and math, reading, and art	I like the computer lab and the library
Student	Student	Bret Harte Elementary								My friends and teachers	The soccer field
Student	Student	Bret Harte Elementary								letting us take our tablets.	What we want the district to develop is to have a dance program and challenge other schools or compete
Student	Student	Bret Harte Elementary								something that is cool at our school is that there is a computer lab and a big P.E. field and there are a lot of games on Friday	there is a soccer field and there are two computer labs on our school and there are a lot of fun stuff at school cause you get to have fun at recess
Student	Student	Bret Harte Elementary								My friends and teachers.	The soccer field
Student	Student	Bret Harte Elementary								Something we're good at is being respectful to elders.	Something we need is to have better food and to give a little more recess.
Student	Student	Bret Harte Elementary									The nurses should help the students like when their belly hurts not just send them to their class do something like send them home.
Student	Student	Bret Harte Elementary								having the school with new stuff and making it better by maintaining it	more sports maybe a soccer team that is not only for after school program maybe for everybody that wants to

Student	Student	Bret Harte Elementary									mathbook and Chromebooks to use at school and take home
Student	Student	Bret Harte Elementary								In wanting kids to success.	Better food and little more fun in teaching so kids constraint in the lesson.
Student	Student	Bret Harte Elementary									I think we should be using solar powered energy for our climate changes and pay atention the dares they do; like ask this girl to go out with you, or send a kiss to this person
Parent	Parent	John Fremont Elementary							None of the above		Creativity in the classroom Bigger picture Timely communication and plan. Always seems to be behind. SSlowing govt. Agency vs business strategy goal setting.
Student	Student	Burbank Elementary								Technology	More sports, like football, basketball, soccer, etc. Also we need more teachers for different activities. We also NEED BETTER MATH PLANS. GET RID OF ENGAGE NEW YORK!!
Student	Student	Burbank Elementary									more clubs,better food,
Student	Student	Burbank Elementary								Academics	Noticing another persons feelings and helping them with how they feel.
Student	Student	Burbank Elementary								The district areas of strength is all the new things they did.	The district should develop is on school dances.
Student	Student	Burbank Elementary								they got computers they.....	They need to develop on food they need to develop on cleaning bathrooms AND MORE....
Student	Student	Burbank Elementary								Really good job with the new technology	could use more outside activities like soccer, football, and basketball
Student	Student	Burbank Elementary								bringing new technologies	need an art teacher
Student	Student	Burbank Elementary								new technology	art class more time in recesses better food school carnival school dances
Student	Student	Burbank Elementary								New computers	To have BETTER food becuase the turkey and gravey is like cat food the bean and cheese burito is to soggy AND BETTER PLAYGROUNDS
Student	Student	Burbank Elementary								the school district did a good job for six grade camp.	not let six grade do enough field trips.
Student	Student	Burbank Elementary								District does a good job at bringing new technologies	need science teacher and a art teacher
Student	Student	Burbank Elementary								English Learning Arts	Technology and better food
Student	Student	Burbank Elementary								Done a good job with bringing new and improved technology.	Need to have more enrichment.
Student	Student	Burbank Elementary								The new technology has been great to have.	Kids need more organized sports and sports lessons.
Student	Student	Burbank Elementary								The school has done a very good job of improving our technology.	The school hasn't done a good job of cleaning the bathrooms.
Student	Student	Burbank Elementary								the school has done a really good job at giving us new technology	The school has not done a good job at giving us enough recess
Student	Student	Burbank Elementary								Bringing new computers ,	Having better food, Ice cream bar , school dances better playground.
Student	Student	Burbank Elementary								They got computers They.....	good food cleaning bathrooms

Student	Student	Burbank Elementary								The school district have done a geart job on the t.vs.	We could have art and p.e
Student	Student	Burbank Elementary								Brought BETTER computers!	Better desks, dances, parties, and better lunch food!
Student	Student	Burbank Elementary								Brought good computers.	More sports, clubs, parties, and better lunch food.
Student	Student	Burbank Elementary								I think that the district did a good job on getting new TV	We could have more sports
Student	Student	Burbank Elementary								Brought in good computers and good computer teacher.	They need more clubs sports and new cafe food and school dances.
Student	Student	Burbank Elementary								Bring new devises for the students can learn and help the teacher help the students learn.	better playground and better food.
Student	Student	Burbank Elementary									The district should develop in more sports and, beater food and treats like (ice dream)
Student	Student	Burbank Elementary								new technology	art class, more recesses, better food, better playground, and better teachers
Student	Student	Burbank Elementary								Bringing better technology,finding better ways to teach kids.	Funner ways to learn
Student	Student	Burbank Elementary								I dont like the lady that runs the district because she doesnt want us to learn and she doesnt want us to switch she doesnt think alot	yup
Student	Student	Burbank Elementary								I think that they did a great job on getting the tv.	They should have a art class
Student	Student	Burbank Elementary								the things they done	school dances
Student	Student	Burbank Elementary								NEW COMPUTERS	they should make better food because its really gross
Student	Student	Burbank Elementary								i like plaing with my firends	i like the libery beacau we get to read
Student	Student	Burbank Elementary								I like going to field trips.	We need a new cafeteria and water fountains.
Student	Student	Burbank Elementary								I like new computers in the class room	I want more equiment
Student	Student	Burbank Elementary								I like going to computers	I want more equiment
Student	Student	Burbank Elementary								I like coming to the computer lab	we should have more fieldtrips
Student	Student	Burbank Elementary								I like having new computers at school to learn.	The schools should be having more balls and a bigger playground.
Student	Student	Burbank Elementary								I like the food in the cafaterea	it needs more siece
Student	Student	Burbank Elementary								I like the new play ground	I want more food
Student	Student	Burbank Elementary								I like the inventions we have! more preparations!	
Student	Student	Burbank Elementary								I like having pe	We need more fieldtrip
Student	Student	Burbank Elementary								i like aflateara	
Student	Student	Burbank Elementary								I like coming to competers	i want more field trips
Student	Student	Burbank Elementary								I like going to computers	i want a new play ground

Student	Student	Burbank Elementary								I like the new computers	I want more field trips
Student	Student	Burbank Elementary								i ruic.kgyydifdryusfdrywgrfdgdhffgdfghfhfg	sffjddgdhdwgdsgsfsgs
Student	Student	Burbank Elementary								i like the new computers	i went more field trips
Student	Student	Burbank Elementary								I like the computer lab	i want more fieltrips
Student	Student	Burbank Elementary								I like pe it is fun.	BURBANK needs A NEW playground.
Student	Student	Burbank Elementary								computers	
Student	Student	Burbank Elementary								I Like the going to go to pe.	more file tips
Student	Student	Burbank Elementary								I like my frends	it needs more balls
Student	Student	Burbank Elementary								I like the computers	I dic the school pe
Student	Student	Burbank Elementary								I like to learn stuff.	The schools should have more balls.
Student	Student	Burbank Elementary								i think there should be more collage peporation, reses, and more feild trips.	they should bild a new play ground.
Community	Community									Variety in course and CTE offerings Administrative expertise and forward-thinking reforms	Would like to see better development of the dual language program, more innovative summer offerings and full-day kindergarten, expanded after school programs in high-needs schools
Parent	Parent	John Fremont Elementary							None of the above	Offering the alternative program such as Open Plan has made a huge impact on my children. They have become well-rounded and exceptional kids.	It would be great if there could be focus on all children, rather than the just the low performing groups.
Student	Student	Bret Harte Elementary								reading,computers,learning,freinds,PE,library, recess	bring a computer home,longer recess,more books to read at home
Student	Student	Bret Harte Elementary								i like writing reading doing math lerning.	i dont like to play bascet ball .
Student	Student	Bret Harte Elementary								teachers,reading,recess, lunch,pe,library,computers.	beter i am
Student	Student	Bret Harte Elementary								teachers, reading, math, computers, library, lunch,	
Student	Student	Bret Harte Elementary								I like to read	I like to sing
Student	Student	Bret Harte Elementary								Friends teachers principle lunch library computers recess	take computers home take some books home and longer resses
Student	Student	Bret Harte Elementary								reading, lunch,math,friends,breakfast,recess.	bring a computer home,more books,longer lunches.
Student	Student	Bret Harte Elementary								teachers, reading, MATH ,ASES, PRINCIPALS, COMPUTERS, LIBRARY, LUNCH,FRIENDS, PE, REALLY GOOD LUNCHES, BREAKFAST, RECESS	BETTER, BRING COMPUTER HOME, LONGER LUNCHES, BETTER LUNCHES, MORE BOOKS TO READ AT HOME
Student	Student	Bret Harte Elementary								reading, math, PE,computers, library, lunches, recess.	bring a computer home , longer recess, more books
Student	Student	Bret Harte Elementary								math, reading, recess, less, homework, #bring phones to school	brincomputrs home
Student	Student	Bret Harte Elementary								The teacher eat tacos and Ms,lee goes to school.	Mr. Rocha goes to the school to leaned.

Student	Student	Bret Harte Elementary								I really like timetables and math.	Riding and practis.
Student	Student	Bret Harte Elementary								I like learning and reading.	I wanna take a computer at home.
Student	Student	Bret Harte Elementary								i llike to read .	i llike to gow Outsid to playy.
Student	Student	Bret Harte Elementary								i like my school and read	i want ta take a computer home
Student	Student	Bret Harte Elementary								I like reading sertain books and math	we could go both sides of the field
Student	Student	Bret Harte Elementary								I like to read.	math
Student	Student	Bret Harte Elementary								Play recess all.	Longer recess.
Student	Student	Bret Harte Elementary								The district's areas of strength is schools and jobs.	the district should develop more libraries and should start computer labs.
Student	Student	Bret Harte Elementary								first i read then i have lunch then i do PE	i like to have long reces and i like to learn
Student	Student	Bret Harte Elementary								Reading, math,pe.	We need more books.
Student	Student	Bret Harte Elementary								Teachers,reading,math,ases,princapls,computers, library,lunch,friends	better bring a computer home
Student	Student	Bret Harte Elementary								teachers,math,reading,principals,computers,library,PE ,lunch,recess,breakfast,library	better,bring a computer home longer lunches,longer recess,reading at home
Student	Student	Bret Harte Elementary								i like math and reading and pe	i want longer reces
Student	Student	Bret Harte Elementary								math,reading,p.i,library,computer,recces,lunch.	better,bring a computer home,longer recces
Parent	Parent	Fred C. Beyer High							None of the above	Collaboration with BSU's Students wanting to learn and thrive to do well Generations of family members educating their children within the district. Educators, parents, and community members who have attended an MCS school as a child is giving back and willing to be active participants given the right circumstance.	Develop relationships and opportunities with previous mentioned areas. Better support and prepare BSU program for success Better partner with community organizations prepared and vetted to support the students. Cultural awareness and diversity training Implicit bias training. Use resources wisely including staff and community members who were educated through the MCS district as a youth.
Student	Student	Bret Harte Elementary								Teac	
Student	Student	Bret Harte Elementary								ASES, free food,the principal	More food options
Student	Student	Bret Harte Elementary								I like math and writing and reading and do PE.	I dont like to do at school its I dont like to play basketball and hokey.
Student	Student	Bret Harte Elementary								teachers reading math ASES principals my friends	i need to get books at my house because i like reading
Parent	Parent	Modesto High					Free and Reduced Price Lunch				I feel that most of the problems are with the discipline at MCS. Maybe create a class for parents on how to be a better parent and student accountability should occur.
Student	Student	Bret Harte Elementary								Brethart is strong because there some yardyoriss out side.	The delvobe is that theres bollys.

Student	Student	Bret Harte Elementary								The library and computer	less reces for a good life and a good education
Student	Student	Bret Harte Elementary								put more fun games and more ruls	go more fast to go home
Student	Student	Bret Harte Elementary								Costco,School,	
Student	Student	Bret Harte Elementary								cumputer labe	1.a better lunch list
Student	Student	Bret Harte Elementary								Fun ativiris and read.	you could play with your friends
Student	Student	Bret Harte Elementary								fun activiris	good lunch
Student	Student	Bret Harte Elementary								one to ten	i love my school
Student	Student	Bret Harte Elementary								I don't like school because I wake up early	Schools is the coolest place to learn
Student	Student	Bret Harte Elementary								Fun ativiris and read.a	you can play with your friends
Student	Student	Bret Harte Elementary									
Student	Student	Bret Harte Elementary								The district's areas of strength is the computer lab because I enjoy technology.	The areas the district should develop is the food because it stinks.
Student	Student	Bret Harte Elementary									
Student	Student	Bret Harte Elementary								The districts strengths are is the teachers	A longer recces and more lunch options
Student	Student	Bret Harte Elementary									They should develop to give students more time to do physical education.
Student	Student	Bret Harte Elementary								I really like the Steam club because I get to learn about art,technology,and building.Also a really like the music classes.	We should get a longer first recess and we should have a bigger playground.
Student	Student	Bret Harte Elementary								teachers helped allot.	More activity's more school dances more fun things .
Student	Student	Bret Harte Elementary									cleanig the school
Student	Student	Bret Harte Elementary								What i think the districts area of strengths are that they have good teachers and good strategies to help the students learn and comprehend the lessons better. I also like how they give us this opportunity to show how our school works and how it is a great environment.	I believe that the school could maybe improve the varieties of food that they serve for lunch and hopefully let their students take computers home to work on their home work and study for tests.
Student	Student	Bret Harte Elementary								The district's areas of strength is my teachers and classroom.	We should get to take computers home.
Student	Student	Bret Harte Elementary								The things are the teachers.	Clean
Student	Student	Bret Harte Elementary								Some things that have help me learn is the teacher and school supplies.	Another thing that has help me is computers and books to learn new words.
Student	Student	Bret Harte Elementary								soccer	EVRYTHING!!!!!!
Student	Student	Bret Harte Elementary								Have many activities and fun stuff	More food choices like a all you can eat food bar
Student	Student	Bret Harte Elementary								teachers, after school activities	math and clean bathrooms and better cafeteria food

Student	Student	Bret Harte Elementary								They help others try their best.	The district should develop on doing more field trips, and fun things.
Student	Student	Bret Harte Elementary								teachers	clean
Student	Student	Bret Harte Elementary								Some things that help me learn is the teacher and school supplies	Another thing that helps me is books to learn new words
Community	Community									The schools appear to be in pretty shape and the grounds are generally well kept.	Let the teachers do their jobs. They tell me there is too much micromanagement, and too many administrators. Like at one elementary school, there are TWO vice principals. This seems like a waste of money.
Student	Student	Bret Harte Elementary								The school is clean and is good because you study more.	i respect to my friends and students.
Student	Student	Bret Harte Elementary								I dont understand	In sports
Student	Student	Bret Harte Elementary									stop bullying , help people not be razies, help people who needs help like me
Student	Student	Bret Harte Elementary									better yarduties because there rude and mean
Student	Student	Bret Harte Elementary								I think it is great.	Nothing at all
Student	Student	Wilson Elementary								Good things happening at Wilson.	I would like to see more field trips.
Community	Community									Some teachers are excellent. They have high expectations and they do whatever they can to help their students to receive a quality education. These teachers will make excellent use of the devices. We have strong libraries with librarians who teach information literacy skills. Libraries are inviting spaces that are well utilized by students. Our CTE programs are excellent. Students learn needed career skills and how to work. AVID is another excellent program that teaches students how to organize their learning. Fine Arts programs at most schools are wonderful. There are delightful concerts, plays, dance, etc. These a definite asset to our community.	There are some teachers who make little effort to insure that students are learning. They present the information whether the students are listening or not. They make no effort to improve their teaching or improve student achievement. These teachers will not change what they do just because devices have been thrust upon them. The older schools in the district are definitely showing their age. The minimal modernization projects that were done were not enough. Students at the older schools should not have inferior schools when compared to Gregori and Enochs. Teachers in the district complain about top down decisions that they are not included in the decision making. Their suggestions are ignored. Communication is inadequate.
Student	Student	Wilson Elementary								There are good students,Really good teachers.	They should develop more ways to stop bullying.
Student	Student	Wilson Elementary								the thing I like about Wilson is very nice tharcers	the thing I don't like about Wilson does not allow 4th or 5th grade play dogeball
Student	Student	Wilson Elementary								provides great field trips and fun things for us.	I think kids should get in trouble for bullying because there is a lot of bullying at my school and the teacher and principal dose not get them in trouble for doing it . I do not feel safe if there is bullying and no one gets in trouble for it because the bully will just keep doing it and that is not OK.That is what I think my school needs to improve on.

Student	Student	Wilson Elementary								One of our strengths are being peace builders	One area we should develop is more field trips.
Student	Student	Wilson Elementary								I like how some people get along and i love doing math and writing assignments.	i don't like how some people are rude and i hate when theirs drama at school in the middle of class it takes away learning time.
Student	Student	Wilson Elementary								ELA and math	sic, art, life skills
Student	Student	Wilson Elementary								What I like about Wilson are my friends and the fact that it's a small school so I know the school better.	What I would like to see at Wilson is more EXOTIC things.
Student	Student	Wilson Elementary								I like p.e	history and art
Student	Student	Wilson Elementary								provide more field trips	more field trips
Student	Student	Wilson Elementary								I do not now	food!
Student	Student	Wilson Elementary								we all get along and there's no bulling	i want to see more of councilng
Student	Student	Wilson Elementary								Read more	when people say bad words I don t like it.
Student	Student	Wilson Elementary								i see people hitting and playing rough	and i want us to play together and have fun
Student	Student	Wilson Elementary								Wilson is a great school to be at	having more eyes on bad kids
Student	Student	Wilson Elementary								its strong	nothing
Student	Student	Wilson Elementary								i like that teachers listen to the students an d they help them succeed in life	i want to see more play ground eqummint on the uppergrader side
Student	Student	Wilson Elementary								they have a pretty good playground and they have good field trips and I like mimium days	learn math more than just the morning.More recess for playing cool things.to make school fun . I think school is terrible.
Parent	Parent	Wilson Elementary	English Learner (EL)							push ups	rings
Student	Student	Wilson Elementary								Some of the district's strength is they have ok field trips, they have good teachers, and they make it where we have more minimum days.	The district should get RID of Common Core, get some guy teachers for this school (not saying it's bad that it's bad to have all lady teachers it's actually nice, sometimes...) because i'm a boy and I've never had a guy teacher only as a substitute, lastly clean our drinking fountains more because sometimes they are DISGUSTING!!!!!!!!!!
Student	Student	Wilson Elementary								edication	
Student	Student	Burbank Elementary								Good teacher's.	Better food.
Student	Student	Burbank Elementary								One of the district's strength is the fact that we have computers for extra class work and extra support.	Something that i think the school should improve is put aside any improvements needed to the school till the students are on break not during school time.
Student	Student	Burbank Elementary								taking area	giving more area
Student	Student	Burbank Elementary								we should have second luches,and	
Student	Student	Burbank Elementary								One thing that the school did well is that they have gotten good computers.	The district should get more free period time.

Student	Student	Burbank Elementary								I go to shcool very day.	I like shcool.
Student	Student	Burbank Elementary								The school has gotten new computers.	free time
Student	Student	Burbank Elementary								They improved by giving us new computers	They should give us more basketballs and red balls.
Student	Student	Burbank Elementary								One thing I like about this school is the staff being kind also having fun activities.	I think the district should develop more space to do P.E
Student	Student	Burbank Elementary								Add a artist teacher	Add a artist teacher of PE of science
Student	Student	Burbank Elementary								The district has supported us with tv's and more electronics for us students to do assays and to search up most stuff we dont understand.	The district should develop more recess and equitments for us, students to use. I also think the district should get better food and pizza for us TO ACTUALLY LIKE!!
Student	Student	Burbank Elementary								One thing of the school did that they did very well is they gave new computers for the class rooms.	They should do a swimming place.
Student	Student	Burbank Elementary								One thing that is good about my school is there making new class rooms .	I think the school can have better food.
Student	Student	Burbank Elementary								They have supported some classrooms with TV's to help kids using technology.And also with better computer equipment for computer lab to learn life essential skill's that maybe our parents did not learn and that we have a better opportunity.	They should give us more free space to roam around the field and give us more space because our health and our fitness is also important.
Student	Student	Burbank Elementary								Great techonolgy.	I think they should change to better food.because some kids don't like it and they dont eat nothing.
Student	Student	Burbank Elementary								The school has been providing us with more technology.	The school has improved in there teaching class.
Student	Student	Burbank Elementary								The school district is probably giving us a science classroom.	They should develop a technology class.
Student	Student	Burbank Elementary								have new p.e. stuff	have new safety
Student	Student	Burbank Elementary								The school has given us better tecnoligy	The school should develop the food.
Community	Community										vocational classes/training
Parent	Parent	Joseph A. Gregori High							None of the above	I have doubts about AP classes, because they are time consuming and I think they do not prepare our children for college. I know high school "A" students that did not feel at the academic level when started taking classes in college and they had to retake classes in order to catch up.	
Student - Spanish	Student	Burbank Elementary								El Distrito hace un bien trabajo con computation. Porque nos da un tiempo para descanzar.	El destrito deberia de poner mas clases como arte
Student	Student	Burbank Elementary								The school porviding things for us.	The school should have better food and more space to play and have less mean teachers and.
Community	Community									Great teachers	Vocational education, not everyone is college bound. Facilities maintenance. Discipline.
Student	Student	Burbank Elementary								add new teacher	add cluds

Student	Student	Burbank Elementary								The areas of strength is technology.	Math and Reading
Student	Student	Burbank Elementary								Some of the strength that this school has is student council.	Something that the school should develop are more field trips
Student	Student	Burbank Elementary								The district's area of strength is with the learning of various classes that have developed many strength in students that learned by.	The ideas I have to share the areas the district should develop is the engaged way of the history classes for every student to have an opportunity in elementary.
Student	Student	Burbank Elementary								Playground and classroom	cafateria
Student	Student	Bret Harte Elementary									
Student	Student	Burbank Elementary								they are letting have good computers	they should bring us more sports to play
Student	Student	Burbank Elementary								something strong the school district is them buying good stuff like computers	
Student	Student	Bret Harte Elementary								i like the techer	share with my frends
Student	Student	Bret Harte Elementary								i like computers	helft
Community	Community									I am very impressed with the teacher librarians and the libraries in the district schools. They provide much needed technology skills as well as provide a safe place for students.	Increase funding for technology, libraries, and computer skills to prepare students for careers.
Parent	Parent	Thomas Downey High					Free and Reduced Price Lunch			I don't know what there strengths are.	I feel as though the district is trying to push out librarys.
Student	Student	Enslin Elementary								My teacher participates in sports at lunch recess.	Nicer principals. Better staff. Treat all the students fair. After school programs & clubs.
Parent	Parent	Joseph A. Gregori High							None of the above	We're new here and not familiar with district.	Synching vacation weeks with Stanislaus would be much appreciated
Parent	Parent	Joseph A. Gregori High							None of the above	Gregori is a top of line school there are many opportunities there that most schools do not have.	One thing this year that was upsetting was regarding politics. I do not feel the classroom is a place for teachers to push their agendas. My student is aware which teachers support certain polical parties and students who don't agree with them can feel insecure in expressing their views. And just have to keep quiet.
Community	Community									You follow along with what other districts do rather than go out and do something on your own.	Vocational ed courses.
Community	Community										Invest in school libraries! Literacy is key to successful education, and libraries are the epicenter of literacy.
Parent - Spanish	Parent	Burbank Elementary	English Learner (EL)				Free and Reduced Price Lunch			El distrito escolar de Modesto esta trabajando conforme a las nesidades de mi nino y su respuesta apoyando con diferentes formas cuando el padre se involucra en la educacion de sus ninos.	El distrito deberia de desarrollar mas talleres de arte y lenguaje antes de ingresar a la high school no solo el programa bilingue.
Parent - Spanish	Parent	Burbank Elementary	English Learner (EL)							opoyo fuerte de administracion y maestros	Mas oportunidades para aprendizaje para padres

Parent - Spanish	Parent	Burbank Elementary	English Learner (EL)				Free and Reduced Price Lunch				me gustaria mas apoyo de los maestros asia los alumnos
Parent - Spanish	Parent	Burbank Elementary					Free and Reduced Price Lunch			tienen Buenos alimentos Buenos maestros	me gustaria que les pongan agua en el salon de clase
Parent - Spanish	Parent	Burbank Elementary	English Learner (EL)				Free and Reduced Price Lunch			apoyo en maestros y academico	mas formacion para deportes y valores a los alumnos
Parent - Spanish	Parent	Burbank Elementary	English Learner (EL)							gracias por la inforcion	todo muy bienn gracias
Parent - Spanish	Parent	Burbank Elementary					Free and Reduced Price Lunch			no se	no se
Parent - Spanish	Parent	Burbank Elementary	English Learner (EL)				Free and Reduced Price Lunch			no se	no se
Parent - Spanish	Parent	Burbank Elementary	English Learner (EL)				Free and Reduced Price Lunch			mas atencin a los alumnos cuando tiene problemas en escuela	
Parent - Spanish	Parent	Burbank Elementary	English Learner (EL)				Free and Reduced Price Lunch			que nos mantienen informados a los padres	me gustaria saber como puedo ayudar a mi hija ser reclasificada
Parent - Spanish	Parent	Burbank Elementary	English Learner (EL)							me gusta la disponibilidad que tienen para ayudar.	
Parent - Spanish	Parent	Burbank Elementary	English Learner (EL)				Free and Reduced Price Lunch			El distrito ha ofrecido Buenos talleres informativos dependiendo a lo que el padre pide cuando se involucre en el rendimiento academico de su hijo.	Debria desarrollar diferentes oportunidades de lenguaje antes de entrar a la high school no solo bilingue. y talleres de arte para motivarlos a desarrollar sus talentos
Parent - Spanish	Parent	Burbank Elementary	English Learner (EL)			Special Education	Free and Reduced Price Lunch			los maestros esta muy organizados	que la comida sea real mente natural
Student	Student	Bret Harte Elementary								There are really stricked and mean.	
Student	Student	Bret Harte Elementary								areas the need more strength in is the playground because kids i repeat do not lissen to the yardudes.. and are school cafatera food is good but there yardduties do not treat the kids great the yarddueats skream at all of us and if we get up they will MAKE us clean UP..	the actives at my school are boring i think we schold have at lease 5 activites at my school. everyDAY THANKYOU FOR YOUR TIME
Student	Student	Bret Harte Elementary								the strength in my school has good strangth	they should surve better food some kid evan thru up becuse of how nasty it tasts i got sick off it too

Parent	Parent	John Fremont Elementary							None of the above	Consistent curriculum and testing across schools Character education	Vocational education I was in a high school classroom where my children were participating in a drama activity. The thermostat was locked and set at 72 degrees. I realize that seems low but a room filled with 30 students is extremely stuffy and warm at 72 degrees. I can't imagine students and teachers being able to function in a stuffy classroom on a hot day. Please allow staff thermostat control.
Student	Student	Burbank Elementary								I think they did good chosen staff	I think we should get less school
Student	Student	Burbank Elementary								I think Burbank Elementary school helps us by getting ready for the future	What i want the district to develop is a science club
Student	Student	Burbank Elementary								the school makes a good place because of the big area that we have .	this school should get better pizza and plant more trees.
Student	Student	Burbank Elementary								+	
Student	Student	Burbank Elementary								I think that my school does a good by making kids go to resource.	I think that the school should have a cheer leading .
Student	Student	Burbank Elementary								Math	minecraft class
Student	Student	Burbank Elementary								game	a pass to get out of class for a hour
Student	Student	Burbank Elementary								Good computers, free equipment.	vending machines, more field trip.
Student	Student	Burbank Elementary								they are good	i want the food to be good.
Student	Student	Burbank Elementary								A lot of new compters	We need more field rrips
Student	Student	Burbank Elementary								they did for us good by giving us field trips	they need better internet. they need a water fountine
Student	Student	Burbank Elementary								the staff did good because they clean are school	we need more field trip and better internet
Student	Student	Burbank Elementary								are school has been doing good by keeping us safe and teaching us new stuff	this school should get better food and play more sports and more sport teams not just baseball they should make soccer and basketball teams.
Student	Student	Burbank Elementary								i will like to have more is one and half hour to play	something else is more painting in class.
Student	Student	Burbank Elementary								I think the school done well is the buildings.	they need better internet.
Student	Student	Burbank Elementary								they teach us well	the district needs a p.e. gym, also the school could make the food taste better so we don't stay hungry.
Student	Student	Burbank Elementary								they teach good	help kids more
Student	Student	Burbank Elementary								math	i whant minecraft class
Student	Student	Burbank Elementary								I think Burbank Elementary is a good school	I think Burbank Elementary should have more field trips and a soccer team
Student	Student	Burbank Elementary								I like how we have a lot of com	

Student	Student	Burbank Elementary								I like to have more school time. I would like more recess to.	I would like to have a ballyball stands.And a bolling ball games.
Student	Student	Burbank Elementary								i like the teacher at all the soock	i wicks thie wud have more cuds
Student	Student	Burbank Elementary								I like the new compter and the new TV	we should do more filed trips
Student	Student	Burbank Elementary								i like the new stuff they are going to build	i want new equipment
Student	Student	Burbank Elementary								I like that they are building more classes for us to learn	I like to have more field trips to our school
Student	Student	Burbank Elementary								I like that our school is building a lot more buildings but there is less space at the play gtround	we should have a bigger office not a big staff room so that the workers at the school can just go to office and i would like a bigger classroom and that the school would make the school play football
Student	Student	Burbank Elementary								I like there are building more class at school.	I want to have more pe.
Student	Student	Burbank Elementary								I would like to have computers but, we have to pay for them. I would like if they made a pool for swimming class. I would like new equitement for the playground.	
Student	Student	Burbank Elementary								I LIKE SOCCER	I WANT MORE COMPUTRELABS
Student	Student	Burbank Elementary								I like more small ball and more recess time.	I want more math time.
Student	Student	Burbank Elementary								i like that they are adding a play ground to school.	i like to have more of the bouncy balls
Student	Student	Burbank Elementary								I like space ship so i can go to OUT OF THIS WORLD FOR EVER!!!!!!! AND then when i come back it will have fying	
Student	Student	Burbank Elementary								I like that teachers are nice and helpful when you need their help they are there for you.And staff are kind because if you trow up they come and help.	I wish we had more basket balls and soccer balls
Student	Student	Burbank Elementary								I like the teachers who like to teach us.	I would like more P.E. and I wish for more soccer.
Student	Student	Burbank Elementary								i like the new computers	i want more feld trips
Student	Student	Burbank Elementary								i like that they are going to add more class room.	I like how they are going to add a better play ground.
Student	Student	Burbank Elementary								I like to learn math and reading because theirs new numbers and new words.	and i love when we learn about animals
Student	Student	Burbank Elementary								i like to have lots of sports clob	they should make new play ground
Student	Student	Burbank Elementary								I like to have tether balls. i want more recess.	I would love more feild trips.i would love more more computers.
Student	Student	Burbank Elementary								i like playing	orballs so i could play with more and vso all of us could
Student	Student	Burbank Elementary								I would like to wish for a big play ground i would like to wish for more yard dodys	i would wish for more balls i would like to have more classes
Student	Student	Burbank Elementary								i like a new play	
Student	Student	Burbank Elementary								i like to the new classroom that they are making	i want to have sports club

Student	Student	Burbank Elementary								I like play.	I want more pe
Student	Student	Fred C. Beyer High									Some staff is rude and unreasonable but the district keeps them no matter how many complaints they get (ex mr chillies)
Student	Student	James C. Enochs High								None	All
Community	Community									Students are aware of what makes them good citizens and behaves accordingly	Support to have a modem dual language program.
Student	Student	Burbank Elementary								I like eating brekfest for free	i want to go to more feilled tripe
Student	Student	Burbank Elementary								I like my school because of the new classroom.	I would like more is more field trips. also a new playground.
Student	Student	Burbank Elementary								I like the recess.	I want more field trips,more basketballs and more time of recess.
Student	Student	Burbank Elementary								I think I like about school is computer lab	I would like more sports
Student	Student	Burbank Elementary								I like having a new classroom.	Maybe i would like a new play ground.
Student	Student	Burbank Elementary								I like the afterschool program	We need to have more recess and playground choices so that kids have things to do. like four square, tether ball and basketball
Student	Student	Burbank Elementary								I like breakfast in our school.	They should add clubs and should add more sports.
Student	Student	Burbank Elementary								I really like the new classroom.I like have a After School Program. I like that we have a computer lab.I like that we have COWS.	I want to see more clubs. I want to see more playground equipment. I want more bouncy balls and basket balls. I want a new cafatiria. I would like to see a robotics class. I would want to see a science class.I would like to see a art class
Student	Student	Burbank Elementary								I really like having after school program,and the new classrooms.	I want to see more field trips.I would also like more bouncy balls.I would like a laptop that the kids could take home.
Student	Student	Burbank Elementary								I really like having more of new computers and preparation for us when we go in a higher grade	Maybe i would want history classes and more days in computer labs
Student	Student	Burbank Elementary								I like having a after school program.I also like the way the school teachers teach me.	I would like the school to have clubs like cooking club and gardening club and would like if all the kids could sign up for the clubs after school and maybe you can pick at least two clubs to join and have a time you have to be there after school and have the clubs on different days.
Student	Student	Burbank Elementary								I like that we have computers,a playground,and filed trips.	i like math class becusesa you learn more
Student	Student	Burbank Elementary								I like that we have computers,a playground,and filed trips.	I would like a new playground,cooking,and a garden.
Student	Student	Burbank Elementary								What I like is that we have ASP and play ground.	I what the school have is more field trip and new play ground.
Student	Student	Burbank Elementary								I really like having the new classrooms,the new computers, and the after school program.	I would like more field trips.I would also like a new cafeteria. The last thing I want are new bouncy balls.

Student	Student	Burbank Elementary								fee lunch and new classroom	a big big new play groud and moure thime to play outsaid
Student	Student	Burbank Elementary								I am glad my school as a computer lab.	I want my school to have a football team.
Student	Student	Burbank Elementary								I reealy like the new tv	I would like more feild trips.
Student	Student	Burbank Elementary								I'm glade that that we have more computers	i think that the school should have farther field for example ; stacormento,fresno,rino
Student	Student	Burbank Elementary								the school computers at the after school progam	I like the new classrooms
Student	Student	Burbank Elementary								I like have free food and we can have more new class room and more Build	we can get phone to school For thing and more ball
Student	Student	Burbank Elementary								soccer field	more more field trips and more time to play
Student	Student	Burbank Elementary								What i like that the school did for us is they build new classrooms and they are building a new cafitera	more cumputer time and more equitment to play outside like hoolahoop and jumproap
Student	Student	Bret Harte Elementary								I like the nu cumptrs .	i wish for mor stuf
Student	Student	Burbank Elementary								at the end of the year a water slid.	a new car.
Student	Student	Burbank Elementary								I would like more dodge balls	field trips each day
Student	Student	Burbank Elementary								I wold like more toys and more motercic	
Student	Student	Burbank Elementary								I will like new -play groynd eqitment	i will like to tack a computer home
Student	Student	Burbank Elementary								I like the new class room and the after school pogram .	The school should have more feild trips
Student	Student	Burbank Elementary								Iwant to play more soccer at the soccer field	I want to go to more field trips
Student	Student	Burbank Elementary								what i like is that we have free breakfast in the morning i also like that we are having a new playground and that we are having new classroom the last thing that i like is that my teacher is nice to me and she teaches me.	i would like to see more equipment like having jump ropes like in my other school wesport and having more balls for everyone
Student	Student	Burbank Elementary								i like to have a bananas and i will like to have a COWS!! and better play ground	i will like to see more basket corts and more filled to play .
Student	Student	Burbank Elementary								i like my school because we got new cumputers	we should go to new fieiled trips.to take cumputers home
Student	Student	Bret Harte Elementary								teachers, recess,computer lab, steam club, chours, lunch, having friends, library.	longer recess, better food, better objects to play with for recess better playground.
Student	Student	Bret Harte Elementary								teach	rules
Student	Student	Bret Harte Elementary								Teacher,computer lab, recess, lunch, havigh friend, library	Bolly Program, longer recess, better playground
Student	Student	Bret Harte Elementary								STEAM Club,Library,recess,lunch after school program	soccer goals, bigger playground
Student	Student	Bret Harte Elementary								teachers,library,lunch,	They should have new food because the food here is HORROBLE
Student	Student	Bret Harte Elementary								lunch,recess,computer lab,library,	shorter time in school,soccer goals,better food
Student	Student	Bret Harte Elementary								i like reases	bring cumputers home and have long reases

Student	Student	Bret Harte Elementary								teachers, friends	cameras, longer recess ,take computers home
Student	Student	Bret Harte Elementary								recess,lunch,having firends,compter lad,library.	bring laptop house,options in lunch,better play groud,longer recess.
Student	Student	Bret Harte Elementary								punishment, teachers,staff	cameras,playground(swings)
Student	Student	Bret Harte Elementary								STEAM,library,class,freinds	cereal at lunch,playground,recess,computer lab,
Student	Student	Bret Harte Elementary								friends	computers
Student	Student	Bret Harte Elementary								i like recess.	bring laptop home, soccer program ,and better opions in lunch.
Student	Student	Bret Harte Elementary								Recess	The Buildings, Field Trips , Food,
Student	Student	Bret Harte Elementary								teachers, reading, computer lab,steam,librery , frinds	mas juegos
Student	Student	Bret Harte Elementary								recess,computer lab,lunch,library	bring laptop homes,soccer program,better opcions in lunch
Student	Student	Bret Harte Elementary								p.e.,lunch,recess,library,and class.	Better food than cheese sticks,tacos, and burritos.
Student	Student	Bret Harte Elementary								Some good things are reading,chest,recess,and the best is seeing all your friends	longer recess more hrs in school more days in school to see are friends and bringing laptops home a bigger field and a bigger play ground and better lunch and choices
Student	Student	Bret Harte Elementary								steam, recess, teachers, lunch.	Bring laptops home, longer recess,
Student	Student	Bret Harte Elementary								to give more reces and get out at one 30	
Student	Student	Bret Harte Elementary								that i thank them for keeping us safe.	mre books in liebary
Student	Student	Bret Harte Elementary								the people of the school is a little bit of nice becace somtimes they play	to be a good things
Student	Student	Bret Harte Elementary								The rules are not fair	you should develop to be more caring
Student	Student	Bret Harte Elementary								the area is OK .	the area is a ok
Student	Student	Bret Harte Elementary								teachers are nice and some students are to.	two things i think this school can work on are leting students take there time well eating. And on bullying because some students go up to the office and tell the principail that someone is bulling them and the principail and the precibeai jest says o.k do not get cloes to them and the person is still bothering then.
Student	Student	Bret Harte Elementary								School rules Dual Program,Steam,ASES, Technoligy	Bulling Playing Around in the Bathroom Safety
Student	Student	Bret Harte Elementary								The good things is everthing	The district should develop food
Student	Student	Bret Harte Elementary								class,environment,teachers,libary	pick your own type of food,more recess,more classes
Student	Student	Bret Harte Elementary								friends.DLA steam class,running club afeter school program chorus Ases libary computer lap	food,sports,phone,comeputer

Student	Student	Bret Harte Elementary								friends,DLA , Ases ,computer lab .	chosng are own food ,more clubs ,better plaground ,taking the computers home.
Student	Student	Bret Harte Elementary								friends,DLA, teachers	take computers home, more time for recess,4 graders to get last recess
Student	Student	Bret Harte Elementary								friends,ASES,running club	More food,more sports,more playground stuff,more bouncy balls,
Student	Student	Bret Harte Elementary								the good things are friends libary and running club	lunch options games math play area and computers yugioh arcade phone pets runing
Student	Student	Bret Harte Elementary								friends	MORE SPORTS!!!!!!!!!! more balls!!!!!!!!!!!!!!
Student	Student	Bret Harte Elementary								DLA ASES STEAM RUNNING CLUB SOCCER LONGER RECCES AND FOOTBALL.	POKEMON,PHONE,FIGHTING, ARCADE.
Student	Student	Bret Harte Elementary								The good things are, Friends,DLA,Some Foods,cumputer lab and road runner renisaunce.	things you can improve are more food options.
Student	Student	Bret Harte Elementary								soccer,Basketball,football,	I would like to have better more time to eat longer recess and let us yous are electronic stuff . water to drink
Student	Student	Bret Harte Elementary								The good things are friends, DLA, teachers, STEAM club, chorus, running club, ASES, library, computer lab, chess club	Things you can improve are more food options, more sports
Student	Student	Bret Harte Elementary								the good	
Student	Student	Bret Harte Elementary								The good things are friends, teacher,principal,DLA,running club,computer lab,library,some cafeteria foods,road runner renaissance	Things you can improve are better foods at lunch! more roadrunner renaissance
Student	Student	Bret Harte Elementary								I think we should have more kids in school.	The district should develop on +lunch options and take our computers from computer class home so they can see our responsibility, and more sports.
Student	Student	Bret Harte Elementary								Music,Soccer,Basketball,Peace Path,	I would like to bring computer home. More food choices and better food.More recess.Gaming activates.
Student	Student	Bret Harte Elementary								DLA.STEAM,Runing club	Soccer
Student	Student	Bret Harte Elementary								I'm not good at nothing	I'm bad at every thing
Student	Student	Bret Harte Elementary								friends,DLA,STEAM class,running club,chorus, library,ASES,computer lab	food,spots,
Student	Student	Bret Harte Elementary								FRIENDS,DLA,TEACHERS,	THINGS YOU CAN IMPROVE ARE MORE FOOD OPTIONS ,MORE SPORTS
Student	Student	Bret Harte Elementary								i wish i could be in the after school program.	i like eating fruit.
Student	Student	Bret Harte Elementary								The good things are computer lab,friends,DLA,library ,lunch,teachers,	Things i can improve are mos re food options taking computers home more resse get out of school at 1;20 always and no yarduries
Student	Student	Bret Harte Elementary								I think I am good at multiplications.	I think I'm bad at reading
Student	Student	Bret Harte Elementary								math	i need help with reading
Student	Student	Bret Harte Elementary									should ask if proplems so can share out with somebody.

Student	Student	Bret Harte Elementary								I think we should have more races. Also do more fun things.	Bring lots of things.
Student	Student	Bret Harte Elementary								Running Club Chores SaftyPatroll	pollise department
Student	Student	Bret Harte Elementary								I wish a i can bring families and children. or choose your lunch. have sports so we have some fun. have mor boocks . to learn more.	
Student	Student	Bret Harte Elementary								I think I am good at multiplication	I think li am bad at reading
Student	Student	Bret Harte Elementary								The good things are my friends, my DLA teachers my school.	Take the compiters
Student	Student	Bret Harte Elementary								the good things are friend dual language teachers programs nice scholars	i think we should get better lunch choices'
Student	Student	Bret Harte Elementary									xs c bsnx,zmlsxc w
Student	Student	Bret Harte Elementary									to have more sports
Student	Student	Bret Harte Elementary								DLA,TEACHERS	MORE FOOD
Student	Student	Burbank Elementary								i like the school has t	they should develop more field trips
Student	Student	Burbank Elementary								get new learning equipment	i like more field trips and P.E equipment
Student	Student	Burbank Elementary								New computers	More P.E. space
Student	Student	Burbank Elementary								the school has done good by if the yard duty catches u cuss u will have to do 5 or more pushups	we need more school hours and we need 3 recess if we get more hours
Student	Student	Burbank Elementary								I .like having computers	field trips
Student	Student	Burbank Elementary								I like having new computers.	2 story classrooms :)
Student	Student	Burbank Elementary								Academics,Physical Education.	Two dodge ball teams to play for during school hours and with practice after school.
Student	Student	Burbank Elementary								I like that the school got cool new computers.	The school should improve the food. Also we need more field trips.
Student	Student	Burbank Elementary								i like the new computer in mrs.garsea	they should up grade the black top
Student	Student	Burbank Elementary								i like math	field trips
Student	Student	Burbank Elementary								I like the new computers here, there faster	They should improve on the saftey
Student	Student	Burbank Elementary								i like the basketball hoops	they should have more feildtrips
Student	Student	Burbank Elementary								i love p.e and computer lab math and library	they make more field trips
Student	Student	Burbank Elementary								I like that we have computer in the classroom	I wood like to see more of fidtrips
Student	Student	Burbank Elementary								i like recess	recess and field trips
Student	Student	Burbank Elementary								I like the way that we have technology so we can learn about computers.	I want to do more fun activities
Student	Student	Burbank Elementary								I like the new COWs in our classrooms	I would like to have more field trips

Student	Student	Burbank Elementary								PE equipment	i like more field trips.
Student	Student	Burbank Elementary								i like having free brestfist	i want more art activites
Student	Student	Burbank Elementary								Ilike the techers hore	i wont the skoolto
Student	Student	Burbank Elementary								i like the new comperters	i want more play time
Student	Student	Burbank Elementary								I like that the school got new computers.	I want to have more p.e. and more field trips.
Student	Student	Burbank Elementary								I like the new computers in the computer lab.	I want to see more field trip.
Student	Student	Burbank Elementary								i like that they give us a chance for us to use the computers that they let us use at the computer lab	i want to have a soccer team at my school
Student	Student	Burbank Elementary								I like having new computers	i want to have sciance
Student	Student	Burbank Elementary								I like that we have a liberey	i what to see more two sqarur
Student	Student	Burbank Elementary								i like the new new computers of the computer lab	have better food :)
Student	Student	Burbank Elementary								i like the new tv and pe	pe
Student	Student	Burbank Elementary								I like that the school has many activities	I want to play soccer more often in p.e.
Parent	Parent	Rose Avenue Elementary							None of the above	I love the Peace Builder program! I feel my child is getting a good education at Rose Ave. I also feel my child is in a safe and caring environment.	I'd like to see money spent in the libraries of the school district. Often my child brings home tattered books, or outdated non-fiction books. I miss having a credentialed librarian at my child's school.
Student - Spanish	Student	Burbank Elementary									i like to go to other places
Student	Student	Burbank Elementary								get new desk and computers	The school should improve the food
Student	Student	Burbank Elementary								I want computers to take home.	I want for our schools to start a flag football team.
Student	Student	Burbank Elementary								more feild trip more game time on the computer	more recess games more librery time
Student	Student	Burbank Elementary								math	let us play baseball on our filled
Student	Student	Burbank Elementary								terrible	more tech more school time more games clubs and more safety
Student	Student	Burbank Elementary								basball	i want flaf foot ballll leagues evrey day minimum days inddor basket ball court mexican food for lunch
Student	Student	Burbank Elementary								i like math not ela mrs.johnson treat us mean burbank elementary	i want to see more of free computers to take home checkout by teachers
Student	Student	Burbank Elementary								The baseball league, and main coordinator Bledsoe	Flag football, indoor basketball court, everyday minimum day, mexican food for lunch
Student	Student	Burbank Elementary								i like the new computers in the computer lab	bolls, whenday to by short
Student	Student	Burbank Elementary								i like the new computer	less shcool hours jumprope

Parent	Parent	John Fremont Elementary				Special Education				Great at making themselves sound great	Developing the whole child not just the test scores. Communicating with and listening to parent (i.e., no one likes random collaboration schedule, no likes spring break at random March week) but no one asked us and no one seems to care about family preferences
Student	Student	John Fremont Elementary								I don't know what this means	I don't know. I'm just a kid.
Student	Student	Modesto High									Instead of spending money to buy t.v.s to present the lunch menu they should take the money and use it for something better. Maybe to remodel Modesto high because it is one of the oldest schools. Cars for the securities aren't nescessary.
Student	Student	Modesto High								The classes that are offered to students have a wide variety.	Students should be taught skills that they'll need later in life (ex: paying taxes)
Community	Community									Modesto city schools does a great job making the community perceive that they are doing everything they can to ensure a quality education for all students. Modesto city schools does a great job educating those students who come from upper middle class families. Modesto City Schools does a great job ensuring that only 19% of their high school students are A-G eligible. They're mission even says that they will prepare all students to be college and career ready. Very nice! MCS will prepare students for college but they will not ensure they meet the requirements to get in. Notice the sarcasm folks. You all are NOT doing your job!	- First, you need to get people out of the district office that are only there for the paycheck and not to actually make a difference. -You need to then get people in the District Office and the school board that reflect the cultures and ethnic background
Student	Student	Joseph A. Gregori High								The district offers a lot of courses that may benefit students in the future.	There should be more courses that teach real world skills, such as bank accounts, or buying a house.
Community	Community										much better health care paid by district
Parent	Parent	James C. Enochs High							None of the above	High-Quality Teachers Curriculum is Challenging Academic Rigor	More vocational opportunities for those who are not college bound. Reduction in class sizes
Community	Community									communication, admin	increase support services such as nursing time
Parent	Parent	Thomas Downey High							None of the above	Phone updates	Students should feel like there is a place on campus to hear about difficult issues in the classroom, like a student /teach liason.
Student	Student	James C. Enochs High								The district seems to care a lot about the well-being of the students, but the staff members don't always know how to deal with gay or transgender students and help them in ways they need help.	Maybe offer lessons to staff members to aid them in helping LBGT+ students, so they know what to do when these students need help.
Parent	Parent	La Loma Junior High							None of the above		Arts instruction needs to be provided at every school TK-12. There needs to be far better academic interventions provided. There needs to be improved mental health support at all levels.

Parent	Parent	Grace M. Davis High							None of the above		Improve mental health services at all sites. Provide arts instruction TK-12
Community	Community									Integrating a variety of resources to support student academic growth.	Greater mental health resources, including increasing site school counselors to provide individual and group counseling for personal issues affecting school.
Parent	Parent	James C. Enochs High								The schools are large w/ many choices of classes.	Helping the introverted kids feel more included. Expanded health services and more nursing time.
Community	Community									GATE	More School Nurses are needed. Health is a major area of concern for students. A true ratio and coverage is concerning. It is best to have a School Nurse in every school. As it stands, school nurses mostly have several schools and additional assignments.
Community	Community									Gives a lot of power to the student and parent	Should not keep passing students who are failing and expect them to graduate Senior year, thats why they drop out
Parent	Parent	Fred C. Beyer High				Special Education	Free and Reduced Price Lunch			Communication about events.	Adjust school starting time for high school students. ALL research shows teens' circadian rhythms are geared toward later bedtimes. We are training students to be sleep deprived adults. However, sleep deprivation is much more dangerous in teens! (The sleep deprivation gets worse as students become Juniors and Seniors, so much is required for college acceptance...schools and districts are complicit in harming the physical, mental, and emotional health of high school students by maintaining a 7:55AM start time.) READ the research; it's screaming that changes be made!
Community	Community									MCS is full of wonderfully dedicated, committed, intelligent teachers with more on the way. We have a diverse student population which allows for differing opinions, broadening of world views, and fostering of greater understanding of cultural values.	We need more arts/music instruction/opportunities in elementary school, and more technical/career education in Jr. High/High schools.
Community	Community									The superintendent keeps MCS staff and students informed and involved with the collaborate, communicate, celebrate program/newsletter...	Probably more vocational education pathways for students to explore...
Community	Community									c	c
Community	Community									Offers a variety of resources to families, transitions program	Communication among departments
Parent	Parent	Thomas Downey High							None of the above		Needs Nurses at each site everyday.

Community	Community										Back to the days with auto mechanics, etc. More vocation education. Not every student will go to college-but will need a job. More practical math that will help students in life.
Community	Community										School nurse at school site more days of the week.
Student	Student	Modesto High								well maintained classy group of teachers and a joy to be around	In counseling department and committing to returning advice to students and parents.
Student	Student	Grace M. Davis High								I dont know	They need more classes that students can use to get ready for their future careers, such as electives.
Student	Student	Bret Harte Elementary								READ,clubs,math	
Student	Student	Bret Harte Elementary								I like to go to Running Club ,Chorus,and Peace Patrol	Take computer Home,Less hours of school
Student	Student	Bret Harte Elementary								some thing good that we do at my schoool is that we do feild trips and the nice clubs after school and after shcool program	more art and some times i fill taking a computer home and play with it and get more p.e. time and fill beging the boss of the school and to keep the teachers stuff.
Student	Student	Bret Harte Elementary								I like chess club, math	take the cumputer
Student	Student	Bret Harte Elementary								teachers,math,ases,club	take a comuter home
Student	Student	Bret Harte Elementary								The areas of strength are when the yard-duties are trying to solve the problems at school with the students and they even made the little problem solution thing on the floor too! They are very helpful	They should develop with more tutors and with longer times. They should also develop with hiring more yard-duties because there are lots of problems that they don't see!
Student	Student	Bret Harte Elementary								teachers,music,Mrs.Conteth,peath walk	take computer home, more time for lunch,more P.E time, more art
Student	Student	Bret Harte Elementary								Math,field trips,music,recess,lunch,and reading	take a computer home,more recess,more PE time
Student	Student	Bret Harte Elementary								i like playing soccer	i want more pe time
Student	Student	Bret Harte Elementary								Teachers,Chorus,Staff,Science,Reading,Math Camp,	Take a computer home,More recess,More P.E., More option for lunch,
Student	Student	Bret Harte Elementary								reading,teachers,After school,	math,recess,PE,lunch
Student	Student	Bret Harte Elementary								it is most of the time clean and most of the teachers are nice and some teachers are mean and they help you with math,science,art, history, and colering	some people like pe and like to play more and you r
Student	Student	Bret Harte Elementary								I love taroboll, and have art, and have mare games ,	
Student	Student	Bret Harte Elementary								get peace at every time and slove your problem at the white and blue solving problems. for they can't fight again	
Student	Student	Bret Harte Elementary								teachers, students, reading, math, ASES, clubs, chorus, running club, chess club, Mrs. Conteh, Peace Patrol, Peace walk	take a computer home, better options for lunch, more recess time, more time during lunch, more art, more PE time,
Student	Student	Bret Harte Elementary								Bret Harte is good school we learn to be nice and peaceful to other student to make a better world to have a better live and world.	we can do art ,math ,steam,sing, and also dance ,and spelling ,and also drama.
Student	Student	Bret Harte Elementary								math,reading,peace walk,music,chorus	

Student	Student	Bret Harte Elementary								reaing resess and in the class	pe more resess more art
Student	Student	Bret Harte Elementary								They are running club and there fun things on Friday.	I like to do is in the school is have fun a lot.
Student	Student	Bret Harte Elementary								Teachers, Students,Reading math ASES clubs chorus running club, chess club, Mrs. Conteh Peace patrol	Computer home , More recess more lunch ,more p.e time ,art
Student	Student	Bret Harte Elementary								I like running club and art and coloring	tolking
Student	Student	Bret Harte Elementary								I like to go Ficip	more Home to do
Student	Student	Bret Harte Elementary								teachers, student, reading, math, art and play more games .	spen playing things in school.
Student	Student	Bret Harte Elementary								more people like art more like PE some people	
Student	Student	Bret Harte Elementary								I like recess,I like Mrs.Segoviano,I like P.E,Art	take computer home,more recess time,
Student	Student	Bret Harte Elementary								ases, Chourus, running club,	take a computer home, more P.E., more lunch options
Student	Student	Bret Harte Elementary								do teachers stuents math reading cule run traying	the rhb
Student	Student	Bret Harte Elementary								i like to do peace patrol.	i like more activities in the class room
Student	Student	James C. Enochs High								The district's area of strength is the resources it provides its students.	
Student	Student	Joseph A. Gregori High								MCS is well generally very adequate with communication.	There should be more diversity in classes that may be taken to graduate.
Community	Community									Classes for non-English speaking parents to learn English so they can help their students with their child's homework, and appreciate what their children are trying to learn in school.	PTAs in the school to foster teamwork and community to help children and their parents to have a more holistic appreciation of learning and preparation for for career opportunities and hopes of higher education.
Community	Community									the district focuses on the high achieving students who are generally college bound	the district needs to put some focus on students who are not college bound and/or "falling through the cracks"
Parent	Parent	James C. Enochs High							Free and Reduced Price Lunch		Technology
Parent	Parent	James C. Enochs High							None of the above	Communication	Volunteer opportunities for students. share these with students and parents.
Parent	Parent	La Loma Junior High							None of the above	I like the staff at LaLoma. Everyone has been professional and friendly.	Maybe more communication about upcoming events...more notice.
Parent	Parent	La Loma Junior High	English Learner (EL)							I don't feel the District is concerned with how the parents feel. Bullying is a serious issue, but if the bully is African American they are given a pass so the District Stats look better. These kids needs to be suspended for fighting, by these kids I mean ALL students. There need to be consequences for bad actions. You need to get Sports back into the Jr Highs, Football and Baseball.	See previous comments.

Parent	Parent	Robertson Road Elementary							None of the above	It is well structured, but is still lacking in some areas.	One huge example is more one on one contact with parents! I always have to look online for news pertaining to district issues and interests.
Community	Community									Well rounded info...	
Student	Student	Joseph A. Gregori High									-Respect -Security -Communication -Campus Hygiene - Better Staff (Reliable) -Fair Share -No Raffles for doing great in school -Better Education -No Standards for Education -No CCSS -Better Campus safety -No saving money to not better schools -Use money for
Community	Community									Large organization that has a genuine interested in students' academic success.	Provide opportunities for students who do not intent to go to college
Student	Student	Bret Harte Elementary								ASES, STEAM,	More options for lunch, football club, longer recess and lunch, more drinks and more field trips.
Student	Student	Bret Harte Elementary								Has a lot of good and healthy sports. Also has nice guardians at recess.	They should get a better playground. And soccer/basketball nets.
Student	Student	Bret Harte Elementary								i do not know	i do hot know
Student	Student	Bret Harte Elementary								something good about this school is the staff and the orange chicken is really good.....	the things the school should improve on is they should have a soccer club and they should make more orange chicken and they should put more food on our lunch plate and we should have more recess.....
Student	Student	Bret Harte Elementary								ASES,clubs	Soccer nets,better options for lunch,take computers home for homework,
Student	Student	Bret Harte Elementary								I do not know	i do not know
Student	Student	Bret Harte Elementary								i don;t know	I want them to have a dance club that would be great
Student	Student	Bret Harte Elementary								The staff and teacher are nice and they have a lot of clubs like running clubs	they should have basketball teams for boys and girls we should take the computers home and bring them back we should have more sports team
Student	Student	Bret Harte Elementary								Something good about this school is when we have a fun Friday when they put music, and at lunch recess give us tennis,hockey,or volleyball.	instead of milk they should give us gatorade. they should give us a soccer net. in the morning only the good people get star bucks. instead of projactore a movie
Student	Student	Bret Harte Elementary								all	Longer recess,more field trips.
Student	Student	Bret Harte Elementary								office	more equipment better food
Student	Student	Bret Harte Elementary								I like the teachers,lunch,club.	soccer club, longer recces, computer home,super slide , volleyball games during recces,
Student	Student	Bret Harte Elementary								What I like about this school is it's clean, there music,we have a lot of clubs.I like that they wrote what BEEP stands for.	They should have better food.They should have a fun day on the last day of school.We could take the computer home with WIFI.
Student	Student	Bret Harte Elementary								Teachers,principals,friends	better options for lunch,basketball,longer recess

Student	Student	Bret Harte Elementary								take a computer homes , have a poll, have more reces , have more fill trip , have more stuff	
Student	Student	Bret Harte Elementary								I get to make new friends ,get free pizza , i get some more help.	log reces, some video games, pizza 3 days a week aloud soda
Student	Student	Bret Harte Elementary								office	field more trees steam more more equipment food
Student	Student	Bret Harte Elementary								i dont know	more flied trips beter food and longer recess
Student	Student	Bret Harte Elementary								the teachers are good in the school and the principals and the whole staff	better options for lunch and longer recess and take a computer home i want more respect from people
Student	Student	Bret Harte Elementary								music , beep club ,steam club,	better options for lunch like juice for lunch and milk for breakfast ,a new playground, longer recess, take a computer home to practice on school projects
Student	Student	Bret Harte Elementary								Some good things about this school is that i get to play with my friends.	More lunch resses to play with my friends.
Student	Student	Bret Harte Elementary								to be honest i dont know.....	they should sell snacks and allow sodas at school they should have longer recesses and have a after school pool .. O
Student	Student	Bret Harte Elementary								I'am not to sure.	The playground like they should add more sports.
Student	Student	Bret Harte Elementary								What i like from school is that i can learn more and do better i life and that i can see all my friends	We should be able to take our computers home and do our homework and to let us take our phones to school or any devices.
Student	Student	Bret Harte Elementary								i like running club and peace patrol.....and every thing about.....	They should make better rules because students still do what ever they wantðŸ˜ˆ-ðŸ˜ˆ'ðŸ˜ˆ-
Student	Student	James C. Enochs High								have not been in the district for a long time so I cannot say	have not been in the district for a long time so I cannot say
Student	Student	Burbank Elementary									i would see more flided trip and
Student	Student	Burbank Elementary								I like when we get our new tv	I want more sports and that people won't get bully
Student	Student	Burbank Elementary								math	i want to do more math,science,and reading and sports.
Student	Student	Burbank Elementary								I realy like geting a big HD tv.	I realy want t have more spoorts like doug ball.
Student	Student	Burbank Elementary								They are great at taking sports away from us.	I want to have more fieldtrips an yardduddies
Student	Student	Burbank Elementary								I like the new laptops	I fell we shuold have more field trips
Student	Student	Burbank Elementary								i really like new math books to learn about math t be more smart and to have a good careear and job	i would to have new libary books
Student	Student	Burbank Elementary									I would like to see more clubs like garden clubs
Student	Student	Burbank Elementary									I would like to have more school programs and field trips.

Student	Student	Burbank Elementary								I like the new laptops	I want to have clubs.
Student	Student	Burbank Elementary								I like P.E.	I wish our teacher would let us play soccer at P.E.
Student	Student	Burbank Elementary								I realk like geting HD tv	I
Student	Student	Burbank Elementary								feeding us in the mornig and aftern	more sports and fill trips
Student	Student	Burbank Elementary								I like getting lab tops.	I will like to have a soccer and a football club in burbank.
Student	Student	Burbank Elementary								I realy like that the teachers help us learn.	I want to have more of play grounds.
Student	Student	Burbank Elementary								I like the new math book and filltrip	I want to have more of more filltrip
Student	Student	Burbank Elementary									I would want to see more feild trip
Student	Student	Burbank Elementary								I like to have free lanch	move
Student	Student	Burbank Elementary									I wish i had more field trips
Student	Student	Burbank Elementary								I really like the baseball team.	I would want more field trips and sports teams.
Student	Student	Burbank Elementary								I like the teacher to help learn.	I would like to have more computer ladas
Student	Student	Burbank Elementary								i like going on more f	
Student	Student	Burbank Elementary								What i think about what the school has done is the feild trips.	I wish the school would like to get to let us to do is a pool party.
Student	Student	Burbank Elementary								i like the new lap tops	i want to have a soccer team and a basket ball team
Student	Student	Burbank Elementary								math	i want to do more soccer
Student	Student	Burbank Elementary								i like the baseball sing ups .	I want to have baseball sign ups.
