

Which parent or community activity(ies) have you participated in this year? Please select all that apply.	How do you receive information about Modesto City Schools? Please select all that apply.	What has prevented you from participating in parent activities so far this year? Please select all that apply.	What would help parents become more involved in Modesto City Schools? Please select all that apply.	Why are you unable to communicate with teachers and staff when necessary? Please select all that apply.	How would you prefer the school to communicate with you? Please select up to three options.	In what area(s) would you like to see more support available to your child at Modesto City Schools? Please select up to five options.	What subjects would you like additional courses offered at your school? Please select up to five options.	What skills would you like to see Modesto City Schools teach students? Please select up to five options.	Which language(s) do you speak at home? Please select all that apply.
School Board Trustee	LCAP committe member	Had a baby this year. So my time is limited.	District interaction with parents is none existent . The school is fabulous but the district is like a ghost in the background and the district purpose is negligible in my view .	50% of the time they do not return e-mails	text/ notifications	We need traditional math back at our high schools. 8th grade math should be Algebra 1	BASIC LIFE SKILLS	help all students by providing proper resources before it is too late above the 3rd grade	Punjabi
Field trips	Retired teacher	trabajo	as my kids get older, less involvement seems to naturally follow	Teachers don\'t return emails.	Text	CTE courses	Medical based science class	life skills	Chinese
movie night		My child is in the mobility impaired class. I talk to the teacher all the time	Parents need you had the desire to participate.	These days \"power school\" is the option I constantly hear that I can/need to use to see how my child is doing. This age in technology has made our children lazy and teachers no longer call us parents if our children are having issues. As a parent I\'m against computer learning to the fullest as our children aren\'t truly learning. Just cutting and pasting answers for everything without any comprehension of what they should be learning. They know more about the useless waste that is social media then the knowledge they should be learning.	Facebook	I would like to see Servive learning and problem based learning as part of the students regular experiences. Also enriching after school programs that are available fir mute students that include art , music and science activities as well as tutoring inspire student success and increase motivation. Theses should be priorities for funding instead of our fast track to jail approach and low expectations that decrease community engages and students\' self-efficacy . Where is the big plan for our region to move forward with educated future community members?	cojeiendo hombres	Family Life Issues	Pig Lattin

PAG Treasurer		My child is embarrassed for me to attend.	Many parents will be more involved if they are directly contacted by school personnel or teachers.	I encourage my child to talk the her teacher\'s when she is struggling or there\'s a problem. Most teacher\'s don\'t listen to students and then I email to set up a conference and CC the principal but I don\'t get a reply. I go in person to find them and still I feel that they are rushed and bothered that I show up without an appointment. It is discouraging to the student.	Texting	allow sick children to stay home without punishment	PHILOSOPHY PLEASE		American Sign Language
PAG (parent advisory group) president		Having two parents who work full time makes it tough to participate	Provide opportunities that could occur at home, such as preparing materials, tutoring, or weekend activities for school improvement (landscaping tasks, etc)	hard to find their email addresses.	Remind app	teacher placement? My son\'s 11th grade teacher (Sutter) doesn\'t seem to be very qualified, calculus teacher\'s style involves very limited teaching/instruction and doesn\'t work well for all students	Learning about the basic psychology of the human brain. (Not health class) this way students may be able to understand why we make mistakes and why we make the decisions we do.		Punjabi
requested & met with the principal			They need to understand not all parents work the 9 to 5 shifts. All parents meeting for my child choir was at 7 pm and lasted approximately 2 hours or so and could not attend them since the single parent has to be up at 4 AM for work but some meeting were mandatory so had to go so child would not be scolded by teacher and had to drive to work and work with very little sleep. I feel they should accommodate for parents that can\'t attend late meetings and work with those parents so parents don\'t feel they are failing their child even though they are busting their butt at work to supply them with a roof over their heads and food in their tummies	teachers do not reply to emails sent.	Text messsges	programing	Life skills		Dutch
Volunteer at school events			After school opportunity		text	cursive	I would like to have some sort of course in Law offered.		Spanish

driver for clubs; Parent Empowerment Program			Teachers who willingly communicate with students and parents		text	learing	law		ASL
Chaperoneon Field Trips/Taught Art Lessons to class.			Stricter policies on kids not using cell phones during school hours. They are of no need and just cause way to many distractions.		Text	more good kids			english
Softball tesm			Updated, easy to navigate school websites		text	soy joto			spanish
Choir concerts			From my personal experience at Enslen Elementary, the opportunities to be involved in the school and the communication of involvement opportunities has been excellent. The main reason some parents/guardians are not involved is because they are not interested in becoming involved. Find a way to make these parents/guardians interested in the academic growth of their children and they will want to be more involved with the school. How to make these parents/guardians more interested in their child\'s academic growth is The Million Dollar Question.		text message	Individualized learning PHILOSOPHY PLEASE			american
FOP			Better communication from teaching staff		Provide newsletter and supporting information through student\'s club/sport/class of interest during a parent included event/conference	Learning the basic information about life such as paying taxes, cooking, and fixing flat tires so on. And have them available to all students not just one SLC			Japanese
College prep meeting			I have no idea about ways to become involved with the school district		text	Foreign Language other than Spanish or French			Burmese

Every 15 mins drunk driver & text message role play			Que se nos tome atenci3n en cuanto a la exigencia de algunos padres de familia, en la preparaci3n de los maestros del programa dual. Necesitamos maestros m3s capacitados en el lenguaje que les toque impartir.		Social media, text	Performing Arts- Instrumental Music Department			chinese
FFA and Pura Vida fundraising			Teacher\'s need to be more willing to listen to student concerns and set them up for success.			Bring back solid ROP progams! Not every kid wants to go to college			Punjabi
Enochs Foundation Board			Actually having a say in homework, attending workshops to assist children better, giving input on discipline, being trained to be a yard duty and then volunteering to help yard duty, leading games during P. E or recess, create or attend friendship clubs to help strengthen friendships with students who need help making friends or being bullied, helping the kids to stay seated the first 7 min of lunch when bringinging a sack lunch, so their not eating while playing or skipping lunch			math skills			spanish
My child\'s I.E.P.			Teachers need to participate in communication with parents,I have had terrible experiences with most of the teachers not having time to return e-mails or calls.			reading			FRENCH
For this child I do not sit on any committees and his back to school night was cancelled. I sit on Everetts SSC for my other child.			Reaching out to local agencies that support strong parental involvement for parent child school activities			it is all good			California

class room monitor						They have programs, and want us to join, but how if they tell us they have no more space.			english
Room parent						After school program			MEXICO

sports						<p>The library staff closes the library a large portion of the time. There is no reason for it because the librarian and assistant should stagger their schedules to enable students to come into the library at lunch and also after school on collaboration days. The librarians do not show that they care at all for students needs.</p> <p>The librarian and assistant should be embarrassed about how they are not meeting the needs of the students. It is ridiculous for the library to be closed at lunch because a class is scheduled during the day to use the library. This is a travesty.</p>			mexico
More field trips in educational places						AP teachers with more experience			espanol
Grad bash						<p>If a child is failing in a class due to not understanding the way the teacher teach and has asked multiple times to move to different class so they dont continue to fail .listen to the child and move them</p>			espanol
						<p>More foreign language options. Spanish is NOT enough!</p>			Cancla
						<p>I think most of these options need to be upgraded some more then others. And any access to social media during school hours or YouTube cell phones in general shouldn\'t be allowed. It just takes away from real learning. At any job is sitting on their phone on social media acceptable?????</p>			japanese
