

THE JAKSHI PROJECT

HPV: EDUCATION AND VACCINATION

This program is designed to educate families and their children about the HPV (human papillomavirus) vaccine and its importance. HPV is the most common sexually transmitted infection, causing genital warts and many types of cancers. The HPV vaccine is extremely effective in protecting people from the disease. This program will also give free, basic vital checkups and the free HPV vaccine to children under 19 who are eligible.

Davis High School
Little Theatre
1200 W. Rumble Rd.,
Modesto, CA
95350

THURSDAY

Dec. 4th 2014

6:00 p.m.

The event will include:

- Education by a physician on HPV, its effects and the vaccine
(translators available)
- A cervical cancer survivor sharing her story
- Informational brochures by the American Cancer Society
- The free HPV vaccine to those who are eligible
- Free basic vitals check ups
- Free refreshments

All boys and girls (under 19) qualify for the FREE vaccine if they meet one of the following conditions:

- Medicaid eligible
- Uninsured
- American Indian or Alaska Native

Private vaccines will be available for kids with insurance.
