

## Proposed & Alternative Election Years by Trustee Area by Map

For each trustee area in each initial draft map, the table below list the trustee(s) who are located in the proposed area, each trustee’s election year, and the proposed and alternate election year assignments for that area.

A trustee whose current terms ends in 2017 and who resides in a 2019 trustee area finishes his/her current term and then cannot immediately run for re-election – he or she must wait until 2019 to run for that seat. A trustee whose current term ends in 2019 and who resides in a 2017 trustee area can either run mid-term for the 2017 seat (resigning the at-large seat and assuming the by-area seat if he/she wins); or the trustee can complete the current term through 2019, leave the Board, and then run when the by-area seat comes up in 2021).

There must be 4 areas up for election in 2017 and 3 areas up for election in 2019.
