- Attend and participate in meetings, conferences and seminars related to computer technology to maintain current knowledge of technological advances in the field.
- Maintain confidentiality of District and user information.
- Drive a vehicle to conduct work.
OTHER DUTIES:

- Perform related duties as assigned.

REQUIRED QUALIFICATIONS:

Education and Experience:

- Any combination equivalent to: graduation from high school supplemented by college-level coursework in computer science or a related field and three years of experience in the installation, maintenance and repair of computer systems, networks, peripherals and related equipment.

Licenses and other Requirements

- Valid California Class C driver's license.
- Must provide DMV printout within five work days of offer of employment.
- Maintain participation in CA DMV Assessment System/Automatic Pull Program.
- Appropriate computer repair and troubleshooting coursework.

DESIRED QUALIFICATIONS:

- CCNP-Cisco Certified Professional or equivalent certification.
- MCSA-Microsoft Certified Solutions Associate certificate.

Knowledge of:

- Technical aspects of network servers, virtual servers and server operating systems and maintenance.
- Computer hardware systems and software applications utilized.
- Windows Powershell scripting.
- Database structures, on-line applications and system capabilities of assigned computer systems.
- Web page development and the server operating systems that run web services.
- Manual instructions, sufficient to enable quick and accurate diagnosis of difficulties.
- Principles, methods and procedures of operating computers, networks and peripheral equipment.
- Applicable laws, codes, ordinances, regulations, policies and procedures.
- Communications and networking equipment such as network hubs, switches and routers.
- Project management methods and practices.
- Record-keeping techniques.
- Operation and maintenance of a variety of specialized equipment and hand tools.
- Technical aspects of field of specialty.
- Basic inventory methods and practices.
- Oral and written communication skills.
- Interpersonal skills using tact, patience and courtesy.

Ability to:

- Coordinate, monitor and provide a variety of specialized services in the installation, operation, repair and maintenance of network servers, virtual servers and operating systems and related equipment.
- Diagnose and resolve hardware or software issues.
- Adapt new or existing equipment for integration into current systems.
- Troubleshoot and repair system malfunctions and maintain system operation.
- Utilize a variety of computer applications and operating systems.
• Respond to user requests for assistance and malfunction correction and provide technical support.
• Research, analyze and recommend new system software and hardware.
• Analyze situations accurately and adopt an effective course of action.
• Manage server-based applications.
• Maintain records related to work performed.
• Maintain current knowledge of technological advances in the field.
• Communicate effectively both orally and in writing.
• Establish and maintain cooperative and effective working relationships with others.
• Work independently with little direction.
• Plan and organize work.

WORKING CONDITIONS:

Work Environment:
• Indoor/Outdoor/Office environment.
• Drive a vehicle to conduct work.

Physical Demands: The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
• Dexterity of hands and fingers to operate a computer keyboard.
• Hearing and speaking to exchange information in person and on the telephone.
• Seeing to read a variety of materials and view a computer monitor.
• Sitting or standing for extended periods of time.
• Lifting, carrying, pushing or pulling moderately heavy objects.
• Bending at the waist, kneeling or crouching to install equipment.
• Reaching overhead, above the shoulders and horizontally.
• Walking.

Hazards:
• Working at heights to install equipment.
