Course Name: Physics I v19 (GS)

Course Credit: 1

Course Estimated Completion Time: 32 - 36 weeks

Course Description: In each module of Physics I, students discover the contributions of scientific geniuses like Galileo, Newton, and Einstein. Through their work, students learn the concepts, theories, and laws that govern the interaction of matter, energy, and forces. From tiny atoms to galaxies with millions of stars, the universal laws of physics are explained through real-world examples. Using laboratory activities, simulations, images, and interactive elements, students follow in the footsteps of some of the world's greatest thinkers.

Prerequisites: Algebra I & II recommended
